

Are You Saving Water in Lab?

GOT FAUCET ASPIRATOR(S)?

Water efficient alternative: *Vacuum Pump*

A small oil-free vacuum pump saves water and also avoids water contamination problems that can occur with aspirators.

Aspirator
15 L/min

Vacuum Pump
No Water Used

Contact CU Green Labs for funding options towards a vacuum pump.

GOT EQUIPMENT COOLED BY TAP WATER?

Water efficient alternative: *Processed Chilled Water*

Processed Chilled Water (PCW) could be used to chill your equipment instead of single use tap water.

Contact CU Green Labs to see if PCW or other options are available for your lab.

Save water right away!

Use the minimum water flow required by your equipment.
