

# Chemical and Biological Engineering (ChBE) Faculty Self-Assesses & Re-Allocates Lab Space

For 20+ years, ChBE has been implementing this exemplary action.

As research shifts directions, lab space needs change over time. ChBE periodically quantifies activity and re-allocates lab space.

This optimizes the use of lab space which is one of the most energy-intensive campus spaces.

In 2022, ChBE received a CU Green Labs Award for developing this departmental process which is resulting in more efficient use of lab space.
