

# You wouldn't leave your oven on at home

## Why do it in lab?

8 kWh/day

LCD TVs

## Put your oven on a timer

Timers automatically shut off your oven according to the schedule you set

Check out the labs that already have timers!

Hoenger  
Caruthers  
Bryant

Gin  
Bierbaum  
Zhang

Campeau/Day  
George  
Bowers

Noble

## Turn off your oven manually between uses

Even better than timers in some cases for larger energy savings

Join these labs in manually shutting off your oven!

Collinge  
Bowers

Campeau/Day  
Pardi  
Gin/Noble

Townsend

## Lower the temperature of your oven

Join these labs who have already turned down their temperatures!

Hoenger (10°C decrease)

Sammakia (4 ovens, 40°C decrease each)

Beirbaum (50°C decrease)

Gin/Noble (2 ovens, 30°C and 40°C decrease)

Schwartz (30°C decrease)

## Consolidate and unplug extra drying ovens

Save even more energy with these labs!
