UNIVERSITY OF COLORADO BOULDER DEPARTMENT OF ECONOMICS Supplement to Admissions Application

Coursework Completed in Economics and Mathematics

NAME:

(Last name, First name)

Instructions: All ECON and MATH coursework taken must be listed on this form and all coursework listed on this form must be in evidence on your transcripts. If you have trouble completing the form or need more space, write to <u>karen.a.kelly@colorado.edu</u>

Prerequisite coursework for admission includes intermediate microeconomic and macroeconomic theory coursework, 6 college-level hours of calculus and 3 college-level hours of statistics.

Keep in mind that prerequisites listed above, and the numbers listed below are only part of the admissions picture. Our committee will look at your entire application package before making admissions and funding decisions. NOTE: Applicants demonstrating strength in mathematics are more likely to be admitted. Highly useful math coursework includes calculus (through calc III), linear algebra, intro to real analysis, differential equations, statistics with calculus (mathematical statistics), and probability theory.

1. List all Undergraduate/Graduate-Level Economics Coursework and Grades*:

*International students may leave the space for grades blank if you do not have U.S. equivalents.

Course Number (e.g. ECON 3070)	Course Name (most recent to oldest)	<u>Course Level</u> Grad = G Undergrad = U	Institution	Term/Year	Grade
