You can access assigned homework problems through <http://www.saplinglearning.com/ibiscms/> and using code “mundt”. No late homework will be accepted. The two lowest homework grades will be dropped.

Recitation: Recitation attendance is mandatory. Not only will your grade in recitation account for 10% of your final grade in the course, but there will be material provided in recitation that is crucial for success in the course. Your TA is PhD student Joshua Schabla, refer to his syllabus to see how recitation grades are determined.

R Exercises: We will be doing R exercises throughout the semester. These assignments are primarily based off completion. We will work through the assignments on R days, so make sure to bring your laptop those days.

Exams: There will be two midterms throughout the semester. They will consist of multiple choice questions along with a couple of free response questions. You will have

50 minutes to complete the exam and you will be allowed to bring a 3x5" index card with notes to refer to during the exam. Any tables required will be provided by the instructor. There will be no make-up exams, unless there is documentation of a medical or family emergency. If you miss an exam, the weight of that exam will be added to the final exam. The final exam will be given the last day of class, and you'll have 95 minutes to complete the exam.

Extra Credit: The only extra credit opportunity will be through iClickers. There will be roughly 2-3 clicker questions per lecture. A maximum of five percentage points will be added to your grade for excellent clicker participation. Make sure to register your iClickers, instructions provided here:
