

Instructor: <u>Dr. Sara Avila</u> Email: <u>sara.avila@colorado.edu</u> Voice: (720) 327-1396 Zoom: <u>https://cuboulder.zoom.us/my/saraavila</u>

• Office Hours by Zoom: Wednesdays and Thursdays 10 am -11:30 pm or by appointment

INSTRUCTOR BIO

I am an economics instructor with almost two decades of experience teaching in public and private universities. My research interests are in the fields of environmental and urban economics. I have worked on topics related to air quality, climate change, urban transportation, and biodiversity conservation. I am passionate about building understanding in a diverse environment. I am always learning about better methods to communicate and teach.

I am also an unconventional runner returning from an injury, and I have a deep affection for Mexican food.

Term Start: Jun 1, 2021 Term End: Jul 23, 2021

COURSE WEBSITE

Canvas is our class website:

- Login using your University of Colorado Boulder identikey and password
 <u>https://canvas.colorado.edu/</u>
- Under Course List, click "ECON 3818: Introduction to Statistics"
- Note: all email correspondence will be through your CU Boulder email address.
 - Do not use the Canvas email or messages, it is not checked.

COURSE DESCRIPTION

This course introduces you to the principles of statistical reasoning and inference. To this end, the course's ultimate goals are for you to thoroughly understand the following concepts: sampling distributions, hypothesis testing, and confidence intervals across multiple settings.

The course has four parts organized into fourteen modules. The first part of the course provides an overview of how data is properly collected and how to explore data using visual and numerical methods. The second part is an introduction to probability theory, discrete and continuous probability distributions and mathematical expectation. The third part introduces sampling distributions, confidence intervals and hypothesis testing. Finally, the last section applies statistical inference to population means, to proportions and to simple regressions.

This foundational course is essential to your success in the study of economics. CU economics 4000-level courses require knowledge of basic statistical reasoning and understanding. Further, our econometric courses build directly off this course.

COURSE OBJECTIVES

By the end of the course you should be able to:

- 1. Describe data with graphs and statistical tools.
- 2. Identify probability distributions.
- 3. Conduct hypothesis testing.
- 4. Conduct statistical inference.
- 5. Identify which test to use in which case.
- 6. Run and interpret a simple linear regression.

COURSE PREREQUISITES

Requires prerequisite courses of ECON 2010 (Principles of Microeconomics) (minimum grade C-) AND either ECON 1088 or MATH 1081 or MATH 1300, MATH 1310, or APPM 1350 (minimum grade C-). It is restricted to students with 22-180 units completed.

REQUIRED COURSE MATERIALS

Textbook (required): Moore, D., Motz, W. and Fligner, M., The Basic Practice of Statistics, 8th edition. With Sapling Plus. Macmillan. ISBN: 9781319057985.

You need the Sapling Plus Version since we use the Sapling Learning System for homework and some quizzes.

You may also buy a hard copy of the book (ISBN:9781319042578-hdk), but this is not required.

Course Website: https://canvas.colorado.edu/ (Canvas) Grades and any further additional readings will be posted on Canvas. Please check Canvas frequently for any relevant notifications/changes that may occur throughout the course.

SUPPLEMENTAL MATERIAL

You will use R, a free statistical package to conduct statistical analysis.

INSTRUCTIONAL METHODOLOGY AND DELIVERY

This course is delivered via distance education format using the CU Canvas system. This format will use a combination of readings, online discussion, and other web-based resources. You will interact with the instructor and other students using the communication functions provided by Canvas. You will submit assignments to the course outline using Canvas. You will also have access to Sapling Plus from the MacMillan Learning catalog.

COURSE PRESENTATION AND PROCEDURES

There will be 16 modules in this course. We will study two modules per week corresponding to the course's 8 weeks. Each module will be comprised of readings from the course texts, supplemental class notes, graded discussion questions, exercises, homework, and exams.

COURSE OUTLINE

Review the separate weekly class schedule found on Canvas under "Syllabus" link.

CLASS PARTICIPATION

This course is designed to engage you through exercises and two class discussions on the topics covered in the course materials. It is important that you participate in exercises and class discussions.

EVALUATION AND GRADING

Course grades will be determined by the completion of assignments, exams, and discussions, as shown below:

Assignment	Points per Assignment	Frequency	GRADE POINTS	GRADE PERCENTAGE
Quizzes*	20	10	200	20%
Problem Sets*	20	10	200	20%
R Exercises*	20	7	140	14%
Discussions	20	4	80	8%
Proctored Midterm Exam	150	1	150	15%
Proctored Cumulative Final Exam	230	1	230	23%
TOTAL			1000	100%

Keep a copy of all work created for the course, including work submitted through Canvas. *The lowest grade of these assignments will be dropped. See below.

Grade	Percentage Grade	Equivalent Points	Indicates
A	93-100	930 - 1000	Excellent
<i>A</i> -	90-92.99	900 – 929	
B+	87-89.99	870 – 899	

COURSE GRADING CRITERIA

В	83-86.99	830 – 869	Above Average
В-	80-82.99	800 - 829	
C+	77-79.99	770 – 799	
C	73-77.99	730 – 769	Average
С-	70-72.99	700 – 729	
D+	67-69.99	670 – 699	
D	63-67.99	630 – 669	Below Average
D-	60-62.99	600 – 629	
F	0-59	600 or lower	Failure

There is +/– grading in this class.

ASSIGNMENTS

Quizzes (200 POINTS) –There will be quizzes associated with most modules each worth 20 points. The format of the quizzes will be multiple choice, calculations, and short answers and will be open book and open notes. Your lowest one (1) quiz are dropped from your final grade calculation. Quizzes will be submitted through Sapling.

Problem Sets (200 POINTS) - There will be a 20-point problem sets associated with most modules.

- Problem sets will consist of quantitative questions. These problem sets will be accessed through Sapling.
- Your lowest one (1) problem set will be dropped from your final grade calculation.

Sapling does not allow extensions on assignments once the due day has passed. If you need an extension, I urge you to communicate with me as soon as possible. See the policy on due dates below.

R Exercises (140 POINTS) - There will be eight 20-point R exercises.

- R exercises complement the material studied in class with coding tools to run the same analysis in R. R Exercises sets will be accessed through Canvas, and you will have to scan your completed problem set in order to submit the problem set on Canvas.
- Your lowest one (1) R exercise will be dropped from your final grade calculation.

Discussions (60 POINTS) - There will be three 20-point discussion postings.

• The discussion will occur asynchronously; I will post a discussion question and you will respond to the questions at your convenience prior to the due date. Discussions are open book and

open note and will be submitted through Canvas. See the class schedule for due dates of posts and comments.

Exams (400 POINTS) – There will be two (2) exams. The proctored midterm exam is worth 150 points and the proctored cumulative final exam is worth 250 points. The format of the exam will be multiple choice and calculations and will be closed book. The exams are completed on Connect in a proctored setting.

This course requires proctored examinations. The Department of Economics at the University of Colorado Boulder requires students to use the online proctoring tool, *Proctorio*, for their proctored exams. *Proctorio* allows students to complete an assessment at a remote location, such as their home, while helping to ensure the integrity of the exam. There is no cost to use this tool.

- Please review <u>Proctorio Minimum System Requirements</u> to ensure you have the correct hardware and software to use this tool.
- Note that you are required to have a computer with a functioning webcam and microphone or have access to a computer with a functioning webcam microphone to complete your exams.

See Canvas for detailed information about proctoring. If you are in a rural area or on a military base, you may need approval process.

EXTRA CREDIT

Extra Credit Practice Exams (0 Points) – There may be two (2) 20-point extra credit practice exams (one associated with the midterm and the other with the final). The practice exams are completed on Sapling and are open book open notes.

COMMUNICATION

I am nice and I want you to succeed. Do not hesitate to contact me about anything.

E-mail: sara.avila@colorado.edu

I will respond to email within 12-18 hours, but usually within 2-4 hours. I always respond to
emails. If you have not had a response within 18 hours, I did not receive the email. Be sure to
use your CU email address because sometimes Gmail and yahoo email accounts are filtered into
my spam folder.

Mobile: (720) 327-1396

• This is my cell phone number. Call or text anytime between 8am – 9pm MTN. I sometimes have my phone turned off during the middle of the day but leave a message when it is a good time to get a hold of you and I will call you back.

Additional ways to contact Dr. Avila:

• Online Office Hours: Wednesdays and Thursdays 10 am -11:30 am using Zoom (https://cuboulder.zoom.us/my/saraavila)

General Course Announcements

• Announcements: Please check the "announcements" section on Canvas.

TECHNOLOGY SUPPORT

CU Boulder uses Canvas.

Here is the list of recommended system requirements: <u>Canvas Computer Specifications Page</u> Here is the detailed list of internet browsers in Windows, MacOS, iOS and Android: <u>Supported Browsers</u> <u>Page</u>

Technical Support

- Canvas technical support. If you are experiencing issues with Canvas please contact:
 - CU Boulder's Help desk at 303-735-4357 (5-HELP) or <u>help@colorado.edu</u>. 5-Help will answer your call: Monday through Friday from 7:30 a.m. to 7:00 p.m., Saturday and Sunday from noon to 6:00 p.m., Closed during <u>University Holidays</u>
 - On your computer, click the "help" (?) icon on the left side of Canvas, once logged in
 - Within the Canvas App, you can search the Canvas support guides, Report a Problem or chat with Canvas Support 24 hours a day, 7 days a week.
- Connect tech support:
 - o http://bit.ly/StudentRegistration

COURSE POLICIES.

Course Withdrawal Policy: Any student who wishes to withdraw from the course must submit a request directly to <u>Continuing Education</u>. For complete information, please visit their website at <u>https://ce.colorado.edu/resources/topics/dates-and-deadlines-general-info/</u>

POLICY ON DUE DATES

Each lecture you will complete a series of critical thinking questions that reflect material from the various delivery formats and required readings. It is your responsibility to turn in each assignment on the required date. Sapling makes it very hard to give you extensions once the due day is past. For this reason, I strongly suggest you try your best to submit on time. Assignments turned in after the scheduled due date will be lowered to the next letter grade for each 12-hour period late. The exceptions that may be considered is due to sickness, university excused function, or circumstances beyond the students' control. The instructor reserves the sole right to determine what grounds constitutes a reasonable excuse for missing or submitting a late work assignment, and the right to require the student to submit proper verification of such excuse.

NETIQUETTE

All students should be aware that their behavior impacts other people, even online. I hope that we will all strive to develop a positive and supportive environment and will be courteous to fellow students and your instructor. Due to the nature of the online environment, there are some things to remember.

- 1. Always think before you write. In other words, without the use of nonverbals with your message, your message can be misinterpreted. So please think twice before you hit submit.
- 2. Keep it relevant. There are places to chat and post for fun everyday stuff. Do not stray from the discussion in the assigned questions.
- 3. Never use all caps. This is the equivalent of yelling in the online world. It is not fun to read. Only use capital letters when appropriate.

- 4. Make sure that you are using appropriate grammar and structure. In other words, I don't want to see anyone writing "R U" instead of "are you". There are people in the class that may not understand this type of abbreviation, not to mention it does nothing to help expand your writing and vocabulary skills. Emoticons are fine as long as they are appropriate. A smile 😌 is welcome, anything offensive is not.
- 5. Treat people the same as you would face-to-face. In other words, it is easy to hide behind the computer. In some cases, it empowers people to treat others in ways they would not in person. Remember there is a person behind the name on your screen. Treat all with dignity and respect and you can expect that in return.
- 6. Respect the time of others. This class is going to require you to work in groups. Learn to respect the time of others in your group and your experience will be much better. Always remember that you are not the only person with a busy schedule, be flexible. Do not procrastinate! You may be one that works best with the pressures of the deadline looming on you, but others may not be that way. The same is true for the reverse. The key to a successful group is organization, communication and a willingness to do what it takes to get it done.

Compiled by Melissa Landin, Instructor, Dept. of Communication, Inver Hills Community College, <u>mlandin@inverhills.edu</u>

CLASSROOM BEHAVIOR

Both students and faculty are responsible for maintaining an appropriate learning environment in all instructional settings, whether in person, remote or online. Those who fail to adhere to such behavioral standards may be subject to discipline. Professional courtesy and sensitivity are especially important with respect to individuals and topics dealing with race, color, national origin, sex, pregnancy, age, disability, creed, religion, sexual orientation, gender identity, gender expression, veteran status, political affiliation or political philosophy. For more information, see the policies on <u>classroom behavior</u> and the <u>Student</u> <u>Code of Conduct</u>.

REQUIREMENTS FOR COVID-19

As a matter of public health and safety due to the pandemic, all members of the CU Boulder community and all visitors to campus must follow university, department and building requirements, and public health orders in place to reduce the risk of spreading infectious disease. This class is conducted entirely online. However, if you need to come to campus you will need to follow the required safety measures.

Required safety measures at CU Boulder include:

- maintain 6-foot distancing when possible,
- wear a face covering in public indoor spaces and outdoors while on campus consistent with state and county health orders,
- clean local work area,
- practice hand hygiene,
- follow public health orders, and
- if sick and you live off campus, do not come onto campus (unless instructed by a CU Healthcare professional), or if you live on-campus, please alert <u>CU Boulder Medical Services</u>.

ECON 3818: Introduction to Statistics

Students who fail to adhere to these requirements may be asked to leave campus, and students who do not leave the campus when asked or who refuse to comply with these requirements will be referred to <u>Student Conduct and Conflict Resolution</u>. For more information, see the policies on <u>COVID-19 Health and</u> <u>Safety</u> and <u>classroom behavior</u> and the <u>Student Code of Conduct</u>. If you require accommodation because a disability prevents you from fulfilling these safety measures, please see the "Accommodation for Disabilities" statement on this syllabus.

Before returning to campus, all students must complete the <u>COVID-19 Student Health and Expectations</u> <u>Course</u>. If you need to come to campus, that day, students are required to complete a <u>Daily Health Form</u>. Students who have tested positive for COVID-19, have symptoms of COVID-19, or have had close contact with someone who has tested positive for or had symptoms of COVID-19 must stay home and complete the <u>Health Questionnaire and Illness Reporting Form</u> remotely.

ACCOMMODATION FOR DISABILITIES

If you qualify for accommodations because of a disability, please submit your accommodation letter from Disability Services to your faculty member in a timely manner so that your needs can be addressed. Disability Services determines accommodations based on documented disabilities in the academic environment. Information on requesting accommodations is located on the <u>Disability Services</u> <u>website</u>. Contact Disability Services at 303-492-8671 or <u>dsinfo@colorado.edu</u> for further assistance. If you have a temporary medical condition, see <u>Temporary Medical Conditions</u> on the Disability Services website.

PREFERRED STUDENTS NAMES AND PRONOUNS

CU Boulder recognizes that students' legal information doesn't always align with how they identify. Students may update their preferred names and pronouns via the student portal; those preferred names and pronouns are listed on instructors' class rosters. In the absence of such updates, the name that appears on the class roster is the student's legal name.

HONOR CODE

All students enrolled in a University of Colorado Boulder course are responsible for knowing and adhering to the Honor Code. Violations of the policy may include: plagiarism, cheating, fabrication, lying, bribery, threat, unauthorized access to academic materials, clicker fraud, submitting the same or similar work in more than one course without permission from all course instructors involved, and aiding academic dishonesty. All incidents of academic misconduct will be reported to the Honor Code (honor@colorado.edu); 303-492-5550). Students who are found responsible for violating the academic integrity policy will be subject to nonacademic sanctions from the Honor Code as well as academic sanctions from the faculty member. Additional information regarding the Honor Code academic integrity policy can be found at the Honor Code Office website.

SEXUAL MISCONDUCT, DISCRIMINATION, HARASSMENT AND/OR RELATED RETALIATION

The University of Colorado Boulder (CU Boulder) is committed to fostering a positive and welcoming learning, working, and living environment. CU Boulder will not tolerate acts of sexual misconduct intimate partner abuse (including dating or domestic violence), stalking, protected-class discrimination

ECON 3818: Introduction to Statistics

or harassment by members of our community. Individuals who believe they have been subject to misconduct or retaliatory actions for reporting a concern should contact the Office of Institutional Equity and Compliance (OIEC) at 303-492-2127 or cureport@colorado.edu. Information about the OIEC, university policies, anonymous reporting, and the campus resources can be found on the OIEC website. Please know that faculty and instructors have a responsibility to inform OIEC when made aware of incidents of sexual misconduct, discrimination, harassment and/or related retaliation, to ensure that individuals impacted receive information about options for reporting and support resources.

RELIGIOUS HOLIDAYS

Campus policy regarding religious observances requires that faculty make every effort to deal reasonably and fairly with all students who, because of religious obligations, have conflicts with scheduled exams, assignments or required attendance. Because of the flexibility of timing of completion of assignments in this class, you must contact the instructor in at least two weeks in advance if you anticipate a religious holiday may impact your completion of coursework.

For more information on the religious holidays most commonly observed by CU Boulder students consult the <u>online interfaith calendar</u>.

COURSE WITHDRAWAL POLICY

Any student who wishes to withdraw from the course must submit a request directly to <u>Continuing</u> <u>Education</u>. For complete information, please visit their website at <u>https://ce.colorado.edu/resources/topics/dates-and-deadlines-general-info/</u>

ADDITIONAL SUPPORT SERVICES

A variety of instructional support services, such as writing center, guidance on personal or educational issues, tutoring questions and library resources are available to the students. For more information about their services, visit their websites linked under modules on Canvas.

Introduction to Statistics, ECON 3818, Summer 2021, Avila, University of Colorado Boulder

Module (start date)	Chapter Number and Topic	Graded Assignments	Due Date by 11:59pm MST/MDT
1		Discussion posting	Tuesday 6/1
(6/1)	Introduction to R	R Exercise Module 1	Wednesday 6/2
(0/1)		Discussion comment	Wednesday 6/2
2	1 Picturing Distributions with Graphs	Problem Set Module 2	Thursday 6/3
(6/3)	2 Describing Distributions with Numbers	Module 2 Quiz	Sunday 6/6
3	12 Introducing Probability	Problem Set Module 3	Tuesday 6/8
(6/7)	13 General Rules of Probability	Module 3 Quiz	Wednesday 6/9
(0/7)	15 General Rules of Probability	R Exercise Module 3	Wednesday 6/9
-		Problem Set Module 4	Thursday 6/10
4	3 The Normal Distribution	Module 4 Quiz	Sunday 6/13
(6/10)	14 Binomial Distributions	R Exercise Module 4	Sunday 6/13
		Problem Set Module 5	Tuesday 6/15
5	8 Sampling	Module 5 Quiz	Wednesday 6/16
(6/14)	9 Experiments	R Exercise Module 5	Wednesday 6/16
			Thursday 6/17
6	10 Data Ethics	Problem Set Module 6	Sunday 6/20
(6/17)	11 Sampling Distributions	Module 6 Quiz Discussion Module 6	Sunday 6/20
			Sunday 0/20
7	Review	Practice Midterm Exam	Wednesday 6/23
(6/21)		Discussion Module 7	, .
8 (6/24)	You may take the PROCTORED midterm exam the day of your choosing Thursday through Sunday.	Proctored Midterm Exam	Thursday 6/24 - Sunday 6/27
9	16 Confidence intervals	Problem Set Module 8	Tuesday 6/29
(6/28)	17 Test of significance	Module 8 Quiz	Wednesday 6/30
(-) -)		Problem Set Module 9	-
10	18 Inference in practice	Module 9 Quiz	Thursday 7/1 Sunday 7/4
(7/1)	20 Inference about a population mean	R Exercise Module 9	Sunday 7/4
11	21 Inference comparing two means	Problem Set Module 10	Tuesday 7/6 Wednesday 7/7
(7/5)	22 inference about a population proportion	Module 10 Quiz	Wednesday 7/7
