REQUIRED COURSE MATERIALS

COURSE MATERIALS

Textbook (required): Money, Banking, and Financial Markets by Stephen Cecchetti and Kermit Schoenholtz, 6th edition with access to Connect. Connect is where you will read your textbook and complete some graded assignments. You will access Connect through Canvas.

Purchase options: An e-text is included with Connect. Purchase access to Connect through:

1. McGraw Hill: for the digital ebook+connect Access.
2. Directly in the Canvas course: To keep the cost of your course materials as low as possible and access to those materials as convenient as possible, we have collaborated with the CU Book Store and the publisher to deliver those materials through a program called "Day 1 Digital Access", which will appear on your tuition and fee bill as "Day 1 Digital Access".

What does this mean for you?

- i. You will receive access to all your course materials, digitally, on the first day of classes, through the course Canvas page.
- ii. You will see a "Day 1 Digital Access" charge on your tuition and fee bill for the book of **about \$85**
 - a) This is a guaranteed lowest price, discounted by the publisher, and not available outside this course
 - b) You have the option to opt out. This means you will not pay for anything, but you lose all access to the course materials, including homework managers like Connect or Mindtap (**I DO NOT RECOMMEND THIS!!!!**)
 - c) You can opt out by using a link in a reminder email you will receive with the subject heading "Day 1 Digital Access".
- iii. Please keep in mind that "opting out" means that your access to these materials will be turned **OFF**, and you will have no way to complete assignments. You will then need to buy the e-book and connect access from McGraw Hill
- iv. If you have questions about **billing**, email: digital@cubookstore.com

- You will also create an account and do some data exercises at Econlowdown.org and FRED. I will send the relevant information as the course progresses.
- You may purchase or rent a used paper text if you prefer but you must have access to Connect.

Course Website: <https://canvas.colorado.edu/> (Canvas) Grades and any further additional readings will be posted on Canvas. Please check Canvas frequently for any relevant notifications/changes that may occur throughout the course.

SUPPLEMENTAL READINGS

Supplemental readings and other materials will be provided in Canvas system, via the CU Library electronic reserve, or by links to websites.

INSTRUCTIONAL METHODOLOGY AND DELIVERY

This course is delivered via distance education format using the CU Canvas system. The asynchronous format will use a combination of readings, online discussion, and other web-based resources. Asynchronous learning does not require real-time (or synchronous) interaction; instead, content is available online for you to access when it best suits your schedule, and assignments are completed prior to the deadlines listed in the schedule. You will interact with the instructor and other students using the communication functions provided by Canvas. You will submit assignments using Canvas, email, or through another online system.

COURSE PRESENTATION AND PROCEDURES

There will be 16 modules corresponding to the 8 weeks of the course (2 module's per week). You should proceed through two modules per week, which will be comprised of readings from the course texts, supplemental class notes, graded discussion questions, homeworks and quizzes, exams, and various outside sources of information such as additional readings and video content, among other content.

COURSE OUTLINE

Review the separate weekly class schedule found on Canvas under "Syllabus" link.

ASSESSMENTS

SMARTBOOK (120 points): Each chapter has an associated SmartBook activity on Connect, worth 10 points. Students complete this activity by answering questions until they reach the target score. Once students reach the target score, they receive full credit (a grade of 100%) for completing the activity. Students may continue answering questions to review even after they have completed the activity or after the due date has passed BUT credit is awarded only when completed by the due date. I will count your 12 best SmartBook scores. SmartBooks are due on Tuesday or Friday by midnight of each module, but I highly encourage you to start them earlier in the week. Budget about 30-60 minutes per module.

MODULE ASSIGNMENTS (330 points): Each module there is a 30-point problem set, discussion, or data exercise (or a combination thereof) assignment. There will be twelve (12) Assignment activities, in total, and the lowest of these will be dropped from your final grade calculation. These are due on Wednesday and Sunday night of each module. Budget around 2 hours per module assessment.

PRACTICE EXAMS (50 points) There will be two (2) practice exams, one before each exam. Each practice exam is worth 25 points.

EXAMS (500 POINTS) – There will be two (2) exams. The proctored midterm exam is worth 200 points and the proctored cumulative final exam is worth 300 points. The format of the exam will be multiple choice and calculations and will be closed book. The exams are completed on Canvas or Connect in a proctored setting.

This course requires proctored examinations. Exams are proctored which will require planning on your part. Proctors are individuals who administer the exam process following the guidelines provided by University of Colorado Boulder to ensure academic integrity.

Who can be my proctor?

If you are in Boulder or nearby, you can take your exam:

1. With **Proctorio or a comparable online proctoring service as determined by your instructor.** Online proctoring is a service that uses a webcam and microphone to ensure academic integrity. To use this service, you must have access to a computer with a webcam and a microphone. There is no cost for using this proctor.

If you outside of Boulder, you can take your exam:

1. At **an accredited college or university testing center** in your town or nearby. There may be a cost for using this testing center.
2. With **Proctorio or a comparable online proctoring service as determined by your instructor.** Online proctoring is a service that uses a webcam and microphone to ensure

academic integrity. To use this service, you must have access to a computer with a webcam and a microphone. There is no cost for using this proctor.

Please see Canvas for detailed information about proctoring, including the contact information for the UTC, Proctorio, and a nationwide list of accredited college or university testing centers. If you are in a rural area or on a military base, you may need to be approved to use a person as a proctor and information is provided on Canvas for this approval process.

EXTRA CREDIT

Up to 50 points of extra may be available (= maximum 5% of the course grade).

- There may be 50 points extra available during the semester for completing certain activities, such as listening and commenting on a podcast, completing special activities, etc. These extra credit opportunities will be determined by the instructor and announced in on Canvas.

POLICY ON DUE DATES

It is your responsibility to turn in each assignment on the required date. In general, there are NO EXTENSIONS but most work for the module can be turned in up to three days late. The grade penalty for this late work is a reduction by one full letter grade for each 24-hours the assignment is late.

Realize that I will drop the lowest of your problem set/exercise/discussion, and I will only take the top 12 of your SmartBook activities. So, you can miss a whole module and still be ok. The exceptions I may consider are sickness, university excused function, military service, or circumstances beyond the students' control. I reserve the sole right to determine what grounds constitutes a reasonable excuse for missing or submitting a late work assignment. Late assignments are not accepted for Exams.

EXPECTATIONS OF INSTRUCTOR

I take my role as your instructors very seriously, and, in fact, I care about how well you do in this course and that you have a satisfying, rewarding experience. To that end, it is our commitment to you to respond individually to the work you submit in this class and to return your work in a timely manner. If, however, due to unforeseeable circumstances, the grading of your work takes longer than the times I have listed here, I will keep you informed of my progress and make every effort to return your work with feedback as soon as I can.

Communication – I am nice, and I want you to succeed. Do not hesitate to contact me about anything. Yes, anything.

COURSE POLICIES

NETIQUETTE

All students should be aware that their behavior impacts other people, even online. I hope that we will all strive to develop a positive and supportive environment and will be courteous to fellow students and your instructor. Due to the nature of the online environment, there are some things to remember.

1. Always think before you write. In other words, without the use of nonverbals with your message, your message can be misinterpreted. So please think twice before you hit submit.
2. Keep it relevant. There are places to chat and post for fun everyday stuff. Do not stray from the discussion in the assigned questions.
3. Never use all caps. This is the equivalent of yelling in the online world. It is not fun to read. Only use capital letters when appropriate.
4. Make sure that you are using appropriate grammar and structure. In other words, I don't want to see anyone writing “R U” instead of “are you”. There are people in the class that may not understand this type of abbreviation, not to mention it does nothing to help expand your writing and vocabulary skills. Emoticons are fine as long as they are appropriate. A smile ☺ is welcome, anything offensive is not.
5. Treat people the same as you would face-to-face. In other words, it is easy to hide behind the computer. In some cases, it empowers people to treat others in ways they would not in person. Remember there is a person behind the name on your screen. Treat all with dignity and respect and you can expect that in return.
6. Respect the time of others. This class is going to require you to work in groups. Learn to respect the time of others in your group and your experience will be much better. Always remember that you are not the only person with a busy schedule, be flexible. Do not procrastinate! You may be one that works best with the pressures of the deadline looming on you, but others may not be that way. The same is true for the reverse. The key to a successful group is organization, communication and a willingness to do what it takes to get it done.
