Required Text:

Abel, Bernanke and Croushore, *Macroeconomics*, 7th edition, Pearson/Addison Wesley Publishers.

Course Description and Objectives:

Macroeconomics is the study of aggregate economic performance, including both long-run growth and short-run fluctuations (“business cycles”). We will give brief attention to long-run growth issues, but will focus mostly on the standard topics of short-run macroeconomics, including income and employment determination, unemployment and inflation, and monetary and fiscal policies.

Prerequisites:

1. Economics prerequisites: ECON 1000 or 2020
2. Mathematics prerequisites: ECON 1078 & ECON 1088 or MATH 1300 or MATH 1310 or MATH 1081 or MATH 1080 & 1090 & 1100 or APPM 1350 or equivalent.

The material covered in this course may require basic calculus. It will be assumed that every student has a working knowledge of calculus, and there will be no formal review of calculus techniques. The mathematics prerequisites will be strictly enforced. In addition, it will be assumed that every student is familiar with the vocabulary and basic concepts of macroeconomics.

Lectures:

Attendance for the first three classes is mandatory or you may be administratively dropped from the class. I will be taking attendance these days. While attendance will not be taken for the other days, it is strongly suggested that you attend all classes since the course material is difficult. You are responsible for all information covered in class lectures. **I do not post or give out my notes.** If you miss a class, you should be able to get notes from one your classmates.

Grading:

Your grade will consist of two midterm exams, a final exam and homework assignments. Each portion of your grade will be weighted as follows:

Midterm 1:	25%	Friday, September 24
Midterm 2:	25%	Friday, October 29
Final Exam	25%	Monday, December 13
Problem Sets:	25%	

Exams:

Neither the midterms nor final are cumulative. I will not give any make up exams and will not give exams early.

Problem Sets:

Problem sets constitute 25% of your course grade which cannot be dropped. The problem sets must be handed in at the beginning of class on the day they are due. Students are encouraged to work on the problem sets in small groups (5 people or less). However, each person must submit their own write-up of each problem set and you must put the names of your group members on your assignment (make sure your name is distinct from the group members so I know who to give the grade to). Handing in identical homeworks is not permitted.

Tentative Schedule:

The class will cover the following material from the text. Time permitting, additional material may be added.

Intro:	Chapters 1, 2
Markets:	Chapters 3, 4, 7
Business Cycles:	Chapters 8, 9, 10, 11

If you have a conflict, please contact me at the beginning of the semester so we can make proper arrangements.

Classroom Behavior Policy:

Students and faculty each have responsibility for maintaining an appropriate learning environment. Students who fail to adhere to such behavioral standards may be subject to discipline. Faculty have the professional responsibility to treat all students with understanding, dignity and respect, to guide classroom discussion and to set reasonable limits on the manner in which they and their students express opinions. Professional courtesy and sensitivity are especially important with respect to individuals and topics dealing with differences of race, culture, religion, politics, sexual orientation, gender variance, and nationalities. Class rosters are provided to the instructor with the student's legal name. I will gladly honor your request to address you by an alternate name or gender pronoun.
