TEXTBOOK:

Students need **either** the paper **or** electronic version of Paul Krugman and Robin Wells, (2012), *Microeconomics*, Worth Publishers, 3rd edition with EconPortal. EconPortal is necessary for the assigned homeworks.

COURSE DESCRIPTION:

Microeconomics is about what goods get produced and at what prices they are sold. The individual must decide what goods to buy, how much to save and how hard to work. The firm must decide how much to produce and with what technology. The course explores how "the magic of the market" coordinates these decisions. In addition, the course considers such questions as: What is competition? Why is competition socially desirable? Is competition likely? How do firms behave in the absence of competition?

The objective of the course is to give a preliminary look at these topics and to provide you with tools to converse intelligently on past, present and future microeconomics events.

PREREQUISITES:

Economics prerequisites: none.

Mathematics prerequisites: you should be competent in algebra and graphing skills.

CLASS ATTENDANCE:

You are responsible for all material covered in class lectures. Attendance at all lectures is strongly recommended.

LAPTOPS/TABLETS:

There is to be no laptop or tablet use for this class at any time, for any reason. The only exception to this rule is if disability services mandate that you must be allowed to use a laptop for note taking purposes. In this case, an official letter from disability services is required.

HOMEWORKS:

There will be a homework assignment posted on Friday afternoon every week. Homeworks are done in EconPortal. They are due on Thursday at 10pm. **No late assignment will be accepted.** Students can drop the one lowest HW grade.

EXAMS:

Two exams are scheduled on the days listed below, during regular class time. **Therefore, no early exams, no late exams, and no make-up exams will be given.** These exams are not cumulative and will focus on the material covered up to that point and after the previous exam. Any material covered in lectures, in recitations, or in homework will be fair game for the exams.

Exams will be part multiple choice, part short answer. You are responsible for bringing pencils, your student ID, and a calculator. Graphing calculators and cell phones are not allowed under any circumstances.

EXAM DATES and TIMES:

Midterm 1: Monday, October 1st

Midterm 2: Friday, November 2nd

Final Exam: Monday, December 17th: 4:30-7:00pm

RECITATION:

First and foremost, recitation will only help you. Recitation is intended to complement, not replace lecture. In recitation, you will have the opportunity to ask questions on topics covered in lecture, review important concepts, do exercises and generally become more comfortable with the material.

GRADING:

Your grade for this course will be based on two midterms, recitation, homework and final exam. **There will be no extra-credit available.** I cannot email you about your grades due to university and federal privacy laws; you must come into office hours to discuss them. I will not email you back if you email me questions about your grade.

Grading weight:

Midterm 1: 25%

Midterm 2: 25%

Recitation: 10%

Homework 10%
Final Exam: 30%

Total course 100%
