Clickers should be registered at: [myCUinfo.colorado.edu](http://myCUinfo.colorado.edu)

*Course description:*

The benchmark model of economics is that markets are “good” at producing and allocating most commodities. However, there are instances when markets do not work well. This is termed market failure, and the course will discuss two classic examples of market failures, viz. public goods and externalities. In such situations, a government program may be justified on the grounds that it can improve outcomes. In addition, markets do not always lead to equitable outcomes. In such situations, a government program may be justified if it redistributes resources from rich to poor families. The course discusses how the design of a program is determined by the legislators’ objectives and by the extent to which voters are informed. In addition to discussing the justification and design of a government program, the course discusses the financing of the program and the design of the tax structure.

*Pre-requisites:*

Intermediate Microeconomics, ECON 3070;  
Introduction to Statistics with Computer Applications, ECON 3818.

*Course Assignments and Desire2Learn:*

All course assignments, problem sets and some lecture notes are posted on Desire2Learn which may be accessed at <http://learn.colorado.edu>.

Please note that six pages of each Adobe Acrobat file can be printed on a single sheet by clicking as: Print>Properties>Multipage>6

*Attendance at class:*

Woody Allen once remarked: "90% of life is just turning up". The best way to learn the material is to attend class. Reading the lecture notes posted on the web is not a good substitute for attendance. Attendance at class is expected and required.

*Administrative Drop:*

Because attendance is important and is expected, I will drop from the class any student who neither attends one the first three classes of the term nor gets special permission from me for his/her absence.

*Problem Sets:*

Problem sets with answers will be posted for each topic. The problem sets are an integral part of the course. They are designed to help you use the material and a significant part of the exams will loosely follow their format.

In addition, there are many questions at the end of each chapter in the textbook. I encourage you to work through these questions and I have posted the answers for your use.

*Grading:*

There will be a midterm exam, a paper and a final exam. The student's grade (before any adjustment for non-attendance) will be determined as:

- 41% Midterm,
- 10% Paper
- 41% Final
- 8%. In-class clicker questions

Concerning in-class clicker questions. I will use clicker questions to reinforce the main point of a lecture. Each correct answer will receive 1 point and an absence or an incorrect answer will receive zero points. In calculating your total score for all in-class clicker questions, I will sum your scores for all days, omitting your three lowest daily scores.

*Paper timeliness:*

It is important that the paper is handed in on the date due (to be announced). If the paper is not handed in by the date due, your course score will be lowered 5% . If the paper is not handed in by the day of the exam, *you will be graded Fail*. If you subsequently hand in the paper within 6 months of the final, your grade will be changed to the grade earned in the midterm, the final and the paper. If you do not subsequently hand in the paper within 6 months of the final, your grade will remain permanently as Fail.

*Contributing to the group in the creation of the paper:*

There have been instances in the past when a member of a group does not fully participate in the creation of the paper. If this happens, the members of the group who are participating should email me noting that the member of the group is not fully participating in the creation of the paper. I will then forward this email to the member asking for his/her comment. If he/she agrees that he/she is not fully participating, I will increase the scores of the participating members to reflect the fact that they are doing more work and reduce the score of the other member to reflect the level of his/her participation. If he/she disagrees and claims to be participating, I will summon all group members to my office to discuss.

*Exams:*

Because this is an advanced course, there is only one midterm. The midterm and final will be given as:

MIDTERM: Monday 15 October 7:00 p.m. - 9:00 pm.  
in MUEN E0046

FINAL: Tuesday 18 December 4:30 p.m. - 7:00 p.m.  
in ECON 119

You must bring a blue-book to each exam.

Because this is a 4000-level class, the exams will not just repeat material covered in class. Some questions will closely follow the material covered in class and in the problem sets, but some will ask you to apply the material in a different environment

*Failure to be present at an exam:*

If you fail to be present at an exam (unless you are ill and have a medical note from your doctor or unless, before the exam, I have granted you permission to take a make-up exam), you will score 0 in the exam.

*Classroom courtesy:*

Please turn your cell 'phone off prior to the start of class.

I believe that learning is enhanced if there is full concentration by both the instructor and the student. Therefore, usage of laptop computers in class is restricted to following the course notes. To facilitate this, laptops may only be used in the front two rows of the classroom.

*Students with Special Needs:*

If you qualify for accommodations because of a disability, please submit to me a letter from Disability Services in a timely manner so that your needs may be addressed. Disability Services determines accommodations based on documented disabilities. Contact:303-492-8671; Center for Community Building, Room N200; or <http://www.colorado.edu/disabilityservices> .

If you have a temporary medical condition or injury, please see the guidelines at: [www.colorado.edu/disabilityservices/go.cgi?select=temporary.html](http://www.colorado.edu/disabilityservices/go.cgi?select=temporary.html)

Disability Services' letters for students with disabilities indicate legally mandated reasonable accommodations. Answers to Frequently Asked Questions can be found at: <http://www.colorado.edu/disabilityservices> .

*Discrimination and Harassment Policy:*

The University of Colorado at Boulder is committed to maintaining a positive learning, working, and living environment. The University of Colorado does not discriminate on the basis of race, color, national origin, sex, age, disability, creed, religion, sexual orientation, or veteran status in admission and access to, and treatment and employment in, its educational programs and activities. (Regent Law, Article 10, amended 11/08/2001). CU-Boulder will not tolerate acts of discrimination or harassment based upon Protected Classes or related retaliation against or by any employee or student. For purposes of this CU-Boulder policy, "Protected Classes" refers to race, color, national origin, sex, pregnancy, age, disability, creed, religion, sexual orientation, gender identity, gender expression, or veteran status. Individuals who believe they have been discriminated against should contact the Office of Discrimination and Harassment (ODH) at (303) 492-2127 or the Office of Student Conduct (OSC) at (303) 492-5550. Information about the ODH, the above referenced policies, and the campus resources available to assist individuals regarding discrimination or harassment can be obtained at <http://www.colorado.edu/odh>

*Religious Observances:*

Campus policy regarding religious observances requires that faculty make every effort to reasonably and fairly deal with all students who, because of religious obligations, have conflicts with scheduled exams, assignments or required attendance. In this class, please let me know in a timely manner if one of the exam dates falls on a religious holiday you intend to observe and I will arrange for you to take a make-up. See policy details at:

[http://www.colorado.edu/policies/fac\\_relig.html](http://www.colorado.edu/policies/fac_relig.html)

*Classroom Behavior:*

Students and faculty each have responsibility for maintaining an appropriate learning environment. Students who fail to adhere to such behavioral standards may be subject to discipline. Professional courtesy and sensitivity are especially important with respect to individuals and topics dealing with differences of race, color, culture, religion, creed, politics, veteran's status, sexual orientation, gender, gender identity and gender expression, age, disability, and nationalities. Class rosters are provided to the instructor with the student's legal name. I will gladly honor your request to address you by an alternate name or gender pronoun. Please advise me of this preference early in the semester so that I may make appropriate changes to my records. See policies at

[http://www.colorado.edu/studentaffairs/judicialaffairs/code.html#student\\_code](http://www.colorado.edu/studentaffairs/judicialaffairs/code.html#student_code)

*Academic Integrity:*

All students of the University of Colorado at Boulder are responsible for knowing and adhering to the academic integrity policy of this institution. Violations of this policy may include: cheating, plagiarism, aid of academic dishonesty, fabrication, lying, bribery, and threatening behavior. All incidents of academic misconduct shall be reported to the Honor Code Council ( [honor@colorado.edu](mailto:honor@colorado.edu) ; 303-735-2273). Students who are found to be in violation of the academic integrity policy will be subject to both academic sanctions from the faculty member and non-academic sanctions (including but not limited to university probation, suspension, or expulsion). Other information on the Honor Code can be found at:
