

REQUIREMENTS FOR THE B.A. in ECONOMICS MAJOR WITH INTERNATIONAL EMPHASIS

UNIVERSITY OF COLORADO BOULDER

The Economics Major with International Emphasis is designed for qualified economics majors who have an interest in taking courses with an international perspective both within the Economics Department and in other departments. This emphasis is recommended for Economics majors who are considering careers in international fields, e.g. economic development, international law and diplomacy, international business, or international education and international non-profits. Students completing this emphasis will receive a certificate from the Economics Department upon graduation. Upon graduation, the transcript will identify this Emphasis as an “option” accomplished by students who have successfully completed it.

The International Emphasis may be added to the Economics major track after the student has completed at least two of the following intermediate-level courses (ECON 3070, 3080 and/or 3818), and attains at least a 3.0 GPA in the economics major and for two of the three stated courses. Students interested in adding this emphasis should contact their Economics advisor once they are in compliance with these conditions. All Economics and ancillary courses applied to the emphasis must be completed with grades of C- or better. A student's major GPA must be at or above 3.000 at the time of graduation for the emphasis certificate to be awarded.

Students must complete **at least 32 hours of Economics courses plus 9 hours of upper division international-related ancillary course work** from outside the Economics Department. ECON 1078 and 1088 do not count toward either the minimum economics credit requirement or the economics major GPA calculation. With presentation of a course syllabus, the Associate Chair for Undergraduate Studies will consider topically relevant courses on a case-by-case basis for fulfillment of the required ancillary course work in substitution for those listed below. Please contact your Economics advisor for further assistance. Transfer students must complete at least 6 hours of this ancillary course work at the University of Colorado Boulder.

I. REQUIRED ECONOMICS COURSES

A. Lower Division – Econ. Requirements

ECON 2010 Principles of Microeconomics and ECON 2020 Principles of Macroeconomics (8 hrs.)

Lower Division - Math Requirements*
