Required Text: Krugman, Paul and Robin Wells, *Macroeconomics*, Worth Publishers, 2009

Course Description: Macroeconomics is the study of the economy as a whole. It examines the aggregate behavior of the economy. This is different from microeconomics, which is the study of the economic behavior of individual consumers, firms, and industries. We will study how economists model the relationships between aggregate economic variables and examine how various fiscal and monetary policies can affect the results. The main goal of this class will be to improve your economic literacy and ability to apply economic models to analyze world events.

Prerequisites: ECON 2010 (Principles of Microeconomics) is required for all students in this class. Students should be familiar with the economic concepts of supply, demand, and elasticity. High school level algebra knowledge is assumed and students should be comfortable using graphs, tables, and equations.

Lectures: In lecture, new material will be presented that will be based upon the textbook, but may differ in emphasis. All students are expected to attend lecture regularly. There may be some material on the exams that is covered only in lecture and not in the textbook. Should you miss a lecture, you should get lecture notes from another student in the class.

Recitation: What happens in recitation is decided by your recitation instructor. Your TA will inform you of the manner of assessment in recitation. The purpose of recitation is to review and reinforce the material that is presented in lecture in a smaller group setting. Attending recitation is required and expected. Recitations begin during the second week of class.

Extra Credit: There will only be a few extra credit opportunities during the semester, and they will be unannounced before class and will only be available during class. Each extra credit opportunity is worth between 0 and 3 percentage points to be added to your midterms and final exam scores. No other extra credit opportunities will be offered.

Grading: Your course grade will be based on five different components. The weights of these four components are shown in parenthesis.

- | | |
|----------------|-----|
| 1) Recitation | 20% |
| 2) Midterm I | 20% |
| 3) Midterm II | 20% |
| 4) Midterm III | 20% |
| 5) Final Exam | 40% |

To make this add up to 100%, I'll automatically drop the lowest of your Recitation, Midterm I, Midterm II, or Midterm III scores when determining your grade. You will not be able to drop your Final Exam score.

Examination:

- There will be **NO** make-up midterms for this class. In the case that you miss a midterm exam, your recitation grade will take its place. This is another good reason to attend recitation—it serves as an insurance policy in case you get sick or miss an exam for some other unexpected reason.
- The midterms are not cumulative and will cover only the materials since the previous test.
- The final exam is cumulative.
- If you have three final exams scheduled for May 5th, and this is the last of your exams, you can take the final on another day. Please speak with me as soon as possible if this is the case.

Final Grades:

100 - 93%	A	77.99 - 73.00%	C

Campus policy regarding religious observances requires that faculty make every effort to reasonably and fairly deal with all students who, because of religious obligations, have conflicts with scheduled exams, assignments or required attendance. In this class, reasonable accommodations will be made for students that notify me adequately in advance of conflicts. Students can see full details at http://www.colorado.edu/policies/fac_relig.html.

Students and faculty each have responsibility for maintaining an appropriate learning environment. Students who fail to adhere to behavioral standards may be subject to discipline. Faculty has the professional responsibility to treat students with understanding, dignity and respect, to guide classroom discussion and to set reasonable limits on the manner in which students express opinions. See polices at <http://www.colorado.edu/policies/classbehavior.html> and at <http://www.colorado.edu/studentaffairs/>
