

# Syllabus for Intermediate Microeconomic Theory

ECON 3070 Fall 2021

## Instructor and contact information

*Instructor:* Dr. Daria Bottan

Email: [daria.bottan@colorado.edu](mailto:daria.bottan@colorado.edu)

I will hold *office hours* every week from 3:00 to 4:00 pm on Wednesday and Friday in my office ECON 04B. I will also hold online office hours over zoom every Monday 11am to 1pm. Here is the zoom link (you might have to wait a little in the waiting room if I am talking about private matters with other students): <https://cuboulder.zoom.us/j/98089728316>

Feel free to stop by, ask questions, and just chat. If you would like to talk to me but your schedule does not allow you to come during office hours, email me and we can arrange a personal appointment. Don't hesitate to reach out, I am here to help.

## Course Prerequisites

Requires prerequisite courses of ECON 2010 (Principles of Microeconomics) and ECON 1088 or MATH 1081 or MATH 1300 or MATH 1310 or APPM 1350 (all min grade C-) (Math/Calculus courses).

## Class Format

Every class I will give lectures and ask you question which you will answer on you phone or laptop using the iclicker (Reef Polling). Those questions will be similar to the questions I'll ask during exams. I'll give you some extra credit for answering those questions. However, I'd like you to understand that the main benefit you get from answering those questions is not the extra credit but the learning gains. Learning happens in your head, not on my slides so contemplating and attempting those questions is a good way to learn more and be more prepared for the exam. See details on iclicker grading and how to sign up below.

## Course Objectives

By the end of the course you should be able to:

- Identify the fundamentals of microeconomic theory;
- Explain how consumers make decisions in the face of scarcity and how these decisions vary in response to changes in the economic environment;
- Explain how firms make decisions in the face of scarcity and how these decisions vary in response to changes in the economic environment;
- Compare consumer and producer behavior resulting from the different types of market structure.
- Apply algebraic, graphical and calculus tools to microeconomic theory;
- Apply microeconomic principles, theories and models to critically analyze and explain economic situations encountered in the real world that involve microeconomics;
- Communicate the results of economic analysis in a clear and professional way;

## Grading

Your grade will consist of:

25% Average Homework Grade  
20% Midterm Exam 1  
20% Midterm Exam 2  
35% Cumulative Final Exam

### Grading Scale

93% and above corresponds to A, 90-92% corresponds to A-; 87-89% corresponds to B+, 83-86% is B, 80-82% is B-; 77-79% corresponds to C+, 73-76% is C, 70-72 is C-; 60-69% corresponds to D; below 60 corresponds to F.

**There is no rounding.** This rule holds regardless of how close you are to a grade cutoff. For example, 89.99 is a B+ and will not be rounded to an A-.

## Exams

Midterm Exams will take place during class time and they will include questions similar to those we practice in class + during Homework assignments. *Midterm Exam 1 is currently scheduled for October 8<sup>th</sup> and Midterm Exam 2 is scheduled for November 5<sup>th</sup>.*

If you miss an exam without *documented excused absence*, the grade for that exam will be zero. In case of an excused absence for the midterm exam, the weight of the midterm will be shifted to the final (final exam will have a weight of 55%). There will be no make up midterm exams.

## Homework

There will be homework most weeks which you will have to submit on paper in class (usually on Wednesdays).

*There is no way to recover a missed homework regardless of the reason why it was missed. However, I'll drop one homework with the lowest grade from your grade calculation.*

## Class Materials

### Iclicker

You can sign up for iclicker at <https://www.iclicker.com>

Search our class by institution (University Colorado Boulder) and by course ID: **BottanFall21Intermediate.**

Grading: if you do all the iClicker questions throughout the semester you will get +1% to your overall grade in the end of the semester. The grade you get for iclicker is proportional to the amount of questions you answer.

*Iclicker points are bonus point, there is absolutely no way to recover them if they were missed regardless of why they were missed.*

### ***Books***

The textbook I recommend for this class is Microeconomics 9th Edition, by Pindyck and Rubinfeld, Pearson Publishing, ISBN 9780134153988. I do recommend you get the textbook. This class is somewhat challenging so it is good to have a textbook for reference and just a slightly different way to approach the material than I teach.

You can buy a used version if you like (we will not be using the online system that comes with it and will do the homework on paper instead). I am doing this to save you money on the textbook.

### **Attendance**

I do not grade attendance in this class. However, I strongly recommend you to come to class: doing practice questions in class is how you will learn most. You will also miss iclicker points and other extra credit opportunities if you miss class.

### **Accommodation for Disabilities**

If you qualify for accommodations because of a disability, please submit your accommodation letter from Disability Services to your faculty member in a timely manner so that your needs can be addressed. Disability Services determines accommodations based on documented disabilities in the academic environment. Information on requesting accommodations is located on the [Disability Services website](#). Contact Disability Services at 303-492-8671 or [dsinfo@colorado.edu](mailto:dsinfo@colorado.edu) for further assistance. If you have a temporary medical condition, see [Temporary Medical Conditions](#) on the Disability Services website.

### **Preferred Student Names and Pronouns**

CU Boulder recognizes that students' legal information doesn't always align with how they identify. Students may update their preferred names and pronouns via the student portal; those preferred names and pronouns are listed on instructors' class rosters. In the absence of such updates, the name that appears on the class roster is the student's legal name. Also feel free to email me any information you find important regarding this matter.

### **Honor Code**

All students enrolled in a University of Colorado Boulder course are responsible for knowing and adhering to the Honor Code academic integrity policy. Violations of the Honor Code may include, but are not limited to: plagiarism, cheating, fabrication, lying, bribery, threat, unauthorized access to academic materials, clicker fraud, submitting the same or similar work in more than one course without permission from all course instructors involved, and aiding academic dishonesty. All incidents of academic misconduct will be reported to the Honor Code ([honor@colorado.edu](mailto:honor@colorado.edu)); 303-492-5550). Students found responsible for violating the academic integrity policy will be subject to nonacademic sanctions from the Honor Code as well as academic sanctions from the faculty member. Additional information regarding the Honor Code academic integrity policy can be found on the [Honor Code website](#).

### **Sexual Misconduct, Discrimination, Harassment and/or Related Retaliation**

The University of Colorado Boulder (CU Boulder) is committed to fostering an inclusive and welcoming learning, working, and living environment. CU Boulder will not tolerate acts of sexual misconduct (harassment, exploitation, and assault), intimate partner violence (dating or domestic

violence), stalking, or protected-class discrimination or harassment by or against members of our community. Individuals who believe they have been subject to misconduct or retaliatory actions for reporting a concern should contact the Office of Institutional Equity and Compliance (OIEC) at 303-492-2127 or email [cureport@colorado.edu](mailto:cureport@colorado.edu). Information about OIEC, university policies, [reporting options](#), and the campus resources can be found on the [OIEC website](#).

Please know that faculty and graduate instructors have a responsibility to inform OIEC when made aware of incidents of sexual misconduct, dating and domestic violence, stalking, discrimination, harassment and/or related retaliation, to ensure that individuals impacted receive information about their rights, support resources, and reporting options.

### **Religious Holidays**

Campus policy regarding religious observances requires that faculty make every effort to deal reasonably and fairly with all students who, because of religious obligations, have conflicts with scheduled exams, assignments or required attendance. In this class, please email me if you have any conflicts for religious reasons.

The class policies are subject to change due to unexpected external conditions and to ensure better student learning.
