I took into consideration each chapter of *Ling and Ting: Not Exactly the Same* while creating the soundtrack. Each song that was chosen reflects the theme and mood of every chapter. Overall, the tone for both the book and soundtrack is lighthearted and cheerful. This tone is also reflected in the visual of the album cover for the soundtrack. With the album cover, I chose a red and polka dot scheme to match the dresses of Ling and Ting. In the design, there are dresses with a slightly different design to each, but with many similarities, to reflect the dresses that the twins wear in the book. The dresses are both similar but 'not exactly the same' as the author Grace Lin named the book. The entire concept behind the soundtrack and album visual was to keep everything as cheerful as the character traits of Ling and Ting.
