When a table with all the added-value features isn't necessary and you need just the essentials, you need the Apollo height-adjustable table. This ergonomic option is available in black, white, or silver. Apollo is a lower cost table base with the same high-quality production.

Toggle Height-Adjustable Tables

DETAILS

Adjustable tables offer a height adjustment of 26 to 52 inches.

Standard electric switch consists of two buttons to raise or lower the table.

Deluxe electric switch is programmable with up to four different heights.

Optional wire management trough allows for an organized work space and accommodates the R8 Undermount Power Module and Vertical Cable Manager.

White

Toggle paint colors are not an exact match to KI black, starlight silver, and cottonwood.

Diem Task Chair

Features & Highlights

- Adaptable and affordable, Diem features a small scale that is ideal for hoteling spaces, training and computer labs or interaction zones.
- The contoured and ultra-cushioned seat has 3.5" of highly resilient foam for impressive seating comfort.
- Unique elastomeric mesh has a subtle, nearly transparent pin-stripe for a lighter, cleaner look that offers long-term, continuous support.

Construction

- A weight-activated mechanism passively adjusts backrest tilt tension based on occupant weight.
- Seat is constructed of molded urethane foam and is available with optional depth adjustment of 2.5".
- Back has a reinforced nylon frame with a mesh insert, available in black, grey or white.
- Dual-surface casters are designed for use on both hard floor and carpet surfaces.

Impress Ultra Task Chair

Features & Highlights

- Seat offers ultra-cushioning with a highly resilient foam formulation creating a soft sit
- Mesh back has sufficient “give” to conform to the unique curvature of your back
- Available with or without adjustable arms
- Seat-depth and back-height (mid-back only) are adjustable
- Optional headrest available on high-back

Construction

- Nylon with fiberglass reinforced frame, back mesh material is polyethylene elastomeric with polyester
- Seat constructed of a ½” thick, saddle-shaped plywood with 2-½” thick, molded, high-resilient foam and upholstered
- Standard height cylinder adjusts height from 17-¾” to 23”, optional low cylinder adjusts height from 17-¾” to 20-½” and optional tall cylinder adjusts height from 21-½” to 27-¾”
- 26” diameter, five-blade reinforced nylon base

MONITOR ARM

FEATURES

- / Supports monitors up to 19 lbs. in portrait and landscape views
- / Friction-controlled screen rotation for double-monitor configurations
- / VESA security screw to guard against theft
- / Hidden compartment for tool storage
