Intra University Transfer - Transfer Credit from another Institution

Students who have transfer credit from another institution (including CU-Denver and CU-Colorado Springs) may use those courses to meet the IUT criteria, ONLY if they meet all of the following guidelines. This does NOT include AP/IB credit.

- Courses must be taken at four year college/university or junior/community colleges based in the United States.
- Courses must transfer as exact matches to CU-Boulder courses that apply to IUT requirements.
- Minimum grade of B or higher must be earned for each and every mathematics/science/engineering course.
- Minimum cumulative GPA earned for all courses taken at the non-CU-Boulder institution must be 3.000. No exceptions.

**IMPORTANT:** Even if you have completed all of these requirements at a previous institution, you still must be enrolled for at least one semester at CU-Boulder and meet all of the other IUT admission criteria listed on the IUT website.

**AP/IB Credit does not count for this exception.** You may use your AP/IB credit to move to a higher-level math or science course, but you will still need the two math and two science courses for IUT admission.

*The College reserves the right to revise these IUT rules or criteria as it finds necessary.*
