Get Involved with the BOLD Center
An Inclusive Community for CU Engineering!

Mission
We advocate for and support equitable student success by broadening access to opportunities, community and leadership among our students.

Values
The BOLD Center is guided by our values of community, leadership, and a growth mindset.

Academic Services/Tutoring
» Connect with academic resources and peer study groups.
» Connect students with undergraduate research opportunities.
» Partner with industry for internship opportunities.
» Engage first- and second-year scholars in weekly study tables in their residence hall.

BOLD Scholarships
Our scholarships are open to any engineering student who is invested in diversity, equity and inclusion to further the BOLD Center mission. Our purpose is to support engineering students through community, academic support and access to resources. Other partner scholarships include:
» Denver Scholarship Foundation
» CU First Generation Scholars
» CU LEAD Alliance
» National Action Council for Minorities in Engineering (NACME)

"It is awesome being able to connect with students from so many diverse identities in the entire College at the BOLD Center. It is a powerful community!"

90% retention rate for 2nd year fall semester students among BOLD scholars

20% of undergraduate students in the college engaged with BOLD services & programming during the ’22-’23 AY

The BOLD Center
UNIVERSITY OF COLORADO BOULDER
Student Societies

We support nine affinity-based, professional engineering and STEM societies to provide a variety of programming and leadership opportunities:

» American Indian Science & Engineering Society (AISES)
» National Society of Black Engineers (NSBE)
» Out in Science, Technology, Engineering, and Math (oSTEM)
» Society of Asian Scientists & Engineers (SASE)
» Society of Hispanic Professional Engineers (SHPE)
» Society of Women Engineers (SWE)
» Women in Computing (WiC)
» Women in Aeronautics and Astronautics (WOAA)
» American Association of Engineers of Indian Origin (AAEIO)

~400 CEAS students receive scholarships

We employ 50-60 undergraduate and graduate students annually

"Being on the leadership team for a BOLD society is one of my favorite aspects since I can create opportunities for connection and be a mentor for other students that share my identities."

BOLD’s Impact

~10-30 students per society participated in professional conferences, enabling greater access to leadership development, internships & job opportunities

890 students participated in a society

460 unique students utilized academic tutoring services

1,325 tutoring appointments facilitated through the BOLD Center
