

FRCC (Boulder County Campus) to CU-Boulder Transfer Advising Guide for Engineering Physics (B.S.)

[Engineering Physics Department Website](#)

Program Overview:

Engineering Physics provides students with a broad exposure to the basic physical theories and mathematical techniques underlying engineering. The program may be specialized to meet the student's interests through engineering electives. Most students become involved in laboratory research, and graduates find opportunities in optics, electronics, magnetics, and other hardware-based job markets.
