

OUTLIER ADVENTURE PARK

CONVERGENCE PARK, LONGMONT, CO

Did you ever climb up a slide as a child? Over the railing on the playground? Children are curious, and that curiosity frequently leads to risks and testing the rules. A child's innovation while playing is often inhibited by limits set by adults, telling them what they can and cannot do. The Outlier Adventure Park at Convergence Park provides a space for them to explore new boundaries. The various open lawn areas, hills, climbing area, and gardens are designed specifically for children, and fulfilling their interest to touch, smell, and investigate.
