Spring Summer Fall Winter

Brief description of Your Organization:

We offer a 2 week internship in Hawaii studying Humpback whales and how humans impact their behavior. Students conduct 4 hours of research a day and work together to map and analyze data. Daily class discussions each evening. There is a midterm and final exam, followed by a final research paper.

Describe the nature/goals of the project(s):

To increase awareness of humpback whales and factors that contribute to the decline in population,
To provide an opportunity for students to obtain credit while studying marine life that is vital to Maui's ecosystem

Please list required and/or desired skills and qualifications:

No previous research experience needed
Willing and able to work well in a group in the hot Maui sun
