Spring ___ Summer X Fall ___

Brief description of Your Organization:

Terra Global is a woman-run, women-owned for-profit social enterprise and small business. Terra Global's mission is to facilitate financially, socially, and environmentally sustainable forestry and agricultural land management practices. Terra Global is a global leader in sustainable forest and agriculture program development, land-use greenhouse gas quantification and finance, and providing technical expertise and investment capital to their global client base in a collaborative and innovative manner. Terra Global has designed and supported the implementation of REDD+ and other sustainable landscape programs in over 31 countries.

Describe the nature/goals of the project(s):

The prospective intern will work closely with Terra Global's Carbon Analytics Team and Investment Team. The goals of the internship will be:

1. Develop critical carbon assessment criteria for blue carbon projects.
2. Assess and choose countries and specific areas where REDD+ projects could be created in West Africa.
3. Aggregate global biodiversity data that includes High Conservation Value areas IUCN Red List species.
4. Review and update Terra Global's Gender Policy and Action Plan.
5. Assist both Teams in finalizing documents and reports.

Please list required and/or desired skills and qualifications:

We are looking for a motivated, enthusiastic student excited to be exposed to climate-finance and carbon project development. Qualifications:

1. Strong oral and written communication skills in English. Spanish is a plus.
2. A self-starter with ability to work remotely but in a team setting.
3. Cultural fit with Terra Global's mission, value, and team.
4. Exposure to or interest in smallholder agricultural or forest conservation projects.

How to Apply:

Please email info@terraglobalcapital.com with a CV and a short cover letter (no more than a paragraph, please) about your interest in Terra Global.
