Internship available these semesters (please mark one or more semesters):

Spring Summer Fall

Brief description of Your Organization:

Thorne is a small non-profit with the main mission to build Earth stewardship by providing youth with joyful, hands-on, place-based environmental education experiences that foster an emotional connection to nature. We uphold this mission with our various programs and initiatives (school programs, field trip, nature preschool, summer camp, Nature for All, nature kids).

Describe the nature/goals of the project(s):

Many of our projects are public facing, and directly with kiddos. This could look like teaching students, supporting Thorne educators during programs, nature mentor for kiddos, preparing supplies for programs, and supporting the “behind the scenes” works like social media posts, minibook editing, picture sorting, and more.

Please list required and/or desired skills and qualifications:

Loves nature, excited to mentor youth, team player
