

Instructions to Register for the FE Exam

As an ABET accredited program, Engineering Plus students are now able to take the Fundamentals of Engineering (FE) exam. Both graduates and current e+ students can sign-up for the FE exam in their MyNCEES account, as described here: <https://ncees.org/engineering/fe/>.

Starting with Spring 2019 graduates, the FE exam will be required of all Engineering Plus students in order to graduate.

The FE Exam is a **Computer-Based Exam**. NCEES administers the FE exam throughout the year at one of several approved Pearson VUE testing centers. Find the Colorado testing centers at: <http://ncees.org/exams/fe-exam/>

Register for the FE Exam at least 3-4 months ahead of time, before spaces fill up, especially if you want to take a Saturday exam.

Plan ahead! As the May and November dates are close to the end of the semester, and thus may interfere with your ability to adequately prepare, you may want to take the FE exam earlier. It is important that you **register early**, before spaces fill up.

Which FE Do I Take? You can take whichever FE test you prefer. For example, if your e+ emphasis is Mechanical Engineering, you can sign up for the *Mechanical Engineering* exam or the *Other Disciplines* exam.

Instructions to Register to Take the Computer-Based FE Exam:

1. Log onto the NCEES website: <http://ncees.org/exams/fe-exam/> to register and pay for the exam. The cost is \$175.
Bring or email Otha Barrow a copy of the NCEES confirmation/receipt showing that you applied and paid for the exam.
2. Log onto the DORA website:
https://www.colorado.gov/pacific/dora/AES_Engineer_Applications_Docs.
Click Applications, Professional Engineer and Engineer Intern - License by Exam and Endorsement (Apply Online). Complete the student application (EI Student app). The cost is \$30.
Bring or email Otha Barrow your confirmation/receipt showing that you applied and paid for the exam.
3. Find the Engineer Intern Application Checklist at:
<https://drive.google.com/file/d/0BzKoVwvexVATdURSWIIycElySkU/view>
4. You will receive an “approval” email from NCEES once they have verified that you are approved by the state (DORA) to sit for the FE exam.
5. Once you receive the “approval” email from NCEES, **log back into your NCEES account on the NCEES website to register for a particular testing site, and the date/time to sit for the test.** You will then receive an appointment confirmation letter via email from Pearson Vue.
