

2019 Fall Environmental Engineering Seminar Series

Friday 12:30-1:30 PM, SEEC N124

Date	Speaker and Affiliation	Title
6-Sep	Dan McCurry , Assistant Professor, University of Southern California	Environmental Organic Chemistry for Safe Water Reuse: Identifying Precursors and Formation Pathways of Priority Disinfection Byproducts in Recycled Water
13-Sep	Rescheduled	
20-Sep	Paola Almeida Guerra , Escuela Superior Politécnica del Litoral, Guayaquil-Ecuador	Use of Sustainable and Innovative Techniques for Heavy Metal Reduction in Andean Water Streams Affected by Artisan Mining Activities Case Study: Ponce Enriquez
27-Sep	Andy May , Assistant Professor, Ohio State University	Constraining uncertainties in black carbon emissions: application to biomass burning smoke
4-Oct	Jordan Macknick , National Renewable Energy Lab	TBA
11-Oct	TBA	TBA
18-Oct	Mark LeChavilier , Dr. Water Consulting, LLC	TBA
25-Oct	Ben Ma , University of Colorado Boulder	Investigation of the removal of contaminants of emerging concern and the microbiome in biofilters
1-Nov	Jessica Ladd-Webert and Teresa Wroe , OIEC/OVA Reps	Skills for addressing gender bias and harassment and supporting peers
8-Nov	David Ilan , Hebrew Union College	A Survey of Water Engineering Works in Ancient Canaan and Israel, 3000-500 BCE
15-Nov	Katie Chambers , University of Colorado Boulder	Latrine Reconstruction and Repair Decisions, Determinants, and Social Network Predictors in Flood- Affected Ethiopian Households
22-Nov	Jana Milford , University of Colorado Boulder	Engaging in environmental policy: an engineer's perspective
29-Nov	Fall Break	
6-Dec	Rudolf Jaffe , Florida International University	Understanding biogeochemical controls on heteroatom composition of dissolved organic matter

Questions? Please contact Professor Anthony Straub, anthony.straub@colorado.edu
