- Becky Mitchell (Director of the Colorado Water Conservation Board)
- Interactive presentation on conflict resolution and collaborative decision making by Todd Bryan
- Stories from retired State and Division Engineers, moderated by KUNC reporter Luke Runyon

This year's conference will cover a range of topics from both a technical and policy perspective, including a deep-drill into ASR, geophysical applications, creative ideas in water planning and management, and how Coloradans are reimagining the river. The day will end with happy hour and a silent auction to benefit the AWRA Colorado and CGWA scholarship programs.
