Pre-Fall 06 data are below. The instructor and course ratings (but not workload ratings) for pre-Fall 06 have been converted to the Fall 06 and later scale (1 = low to 6 = high). For Fall 91-Summer 06, workload scale is 1 (too light) to 9 (too heavy). Before Fall 91, it is 0-4. See footnotes for more info.

- Comparisons of average section ratings and grades with average department ratings and grades are WITHIN YEAR/TERM, INSTRUCTOR GROUP (e.g., tenured and tenure-track, other) AND COURSE LEVEL (e.g., lower division, upper division, graduate).

- A-F %s are of students receiving A-F grades (not "pass"). If course taken P/F, "pass" grades excluded from avg. W/D & incomplete %s are of total enrolled.

- Parentheses following section averages show differences between section and dept averages of .5, 1, and 1.5 standard deviations as ---, --, -, +, ++, and +++, where "dept" is the department or unit (e.g., Farrand) sponsoring the course. blank = negligible difference. NA = No comparison info for summer terms due to small sample size.

Only consistent patterns of differences are meaningful!!

- "Hours/week (incl class)" and "workload": These are two entirely different questions! For Fall 06 or later, hours/week (incl class) is the average number of hours per week the student reported spending in class, lab, rec, and homework. The ranges correspond to those listed on the FCQ form: 0-3 hours, 4-6, 7-9, 10-12, 13-15, and 16+. For Fall 91-Summer 06, workload scale is 1=too light ... 5=OK ... 9=too heavy. Before Fall 91, it is 0-4. Workload ratings have NOT been converted to the Fall 06 and later scale.
