This form is to verify asset amounts for the student and parent as reported on the Free Application for Federal Student Aid (FAFSA). When you originally completed the FAFSA, both the parent and student asset amounts were similar or exactly the same. We have found this is typically done in error. For more information on what is considered an asset, see back of form.

1. Review your FAFSA Submission Summary, which was emailed to you upon completion of the FAFSA and reference questions 22 and 40 or log in to your FAFSA to view asset questions.

Are the asset amounts listed for both student and parent correct?

☐ Yes, both parent and student assets are similar in value or exactly the same. (skip to step 3)

☐ No, parent and/or student assets are incorrect. (continue to step 2)

2. **Which asset amounts are incorrect?** For any asset question that is incorrect, use this form to enter the correct value as of the date the 2025-26 FAFSA was originally completed. Do not submit the same corrections to your FAFSA online. *If a line is left blank, the current value on FAFSA will be assumed correct.*

Parents of dependent students should not report the value of educational savings accounts for other children. For a student who must report parental information, the accounts are reported as parental investments in question 40, including all accounts owned by the student and all accounts owned by the parents for any member of the household.

Investments do not include the home you live in, the value of life insurance, ABLE accounts, 529 college savings plans if the student is the beneficiary, retirement plans (401[k] plans, pension funds, annuities, non-education IRAs, Keogh plans, etc.) or cash, savings and checking accounts already reported in questions 22 and 40.

Investments also do not include UGMA and UTMA accounts for which you are the custodian, but not the owner.

Investment value means the current balance or market value of these investments as of today. Investment debt means only those debts that are related to the investments.

Business and/or investment farm value includes the market value of land, buildings, machinery, equipment, inventory, etc. Business and/or investment farm debt means only those debts for which the business or investment farm was used as collateral.
