

## **Quick Start Guide: Viewing Publications in Elements**

There are two publications views offered in CU Boulder Elements (CUBE) –users can view a specific publication in the list view, or delve into more detail for each publication.

## **Viewing Publications in the List View:**

Navigate to the Publications page by clicking on the "Publications" tile on the home page, or by clicking on the tribar ( $\equiv$ ) icon on the top-left corner of the window to access My Work > Publications:

You will be automatically re-directed to the "Claimed" publications page.

Here, you can view the specific publication as part of the larger publication list. This list view offers various forms of data about your publication by clicking on the tabs at the bottom of the record:

- Summary shows the basic bibliographic data.
- Metrics displays the citation and Altmetric data (Hover over the question mark (?) icon for more information).
- Labels presents all of the ontologies available to be associated with the publication.
- Relationships lists all of the other CUBE users who are linked to the record
- **Sources** shows a list of the data sources that comprise the publication object. These could be CrossRef, Web of Science, PubMed, Europe PubMed Central, Google Books, or a Manual record.
- **History** is the log of all activities performed against the record, including when the publication was claimed by the user and added to the publication list.
