

Quick Start Guide: Exporting Publication Data from Elements

The publication data in CU Boulder Elements (CUBE) can be exported to be used in CVs, websites, research management tools, or other documents. Authors can export specific publication types, or all of the publication records claimed by an author. Records can be exported in the following formats:

- BibTeX, for reference management services
- RIS (Research Information Systems) format, for EndNote and other reference management programs
- PDF, suitable for printing
- Word, suitable for text-based programs
- CSV, for Excel and databases

To Export Publication Data from CUBE:

Navigate to the Publications page by clicking on the "Publications" tile on the home page, or by clicking on the tribar (\equiv) icon on the top-left corner of the window to access My Work > Publications:
