# ADDITIONAL INFO

# Dimensions Badges and open Metrics API

Dimensions is making publication and citation data available - also via badges and as an open metrics API

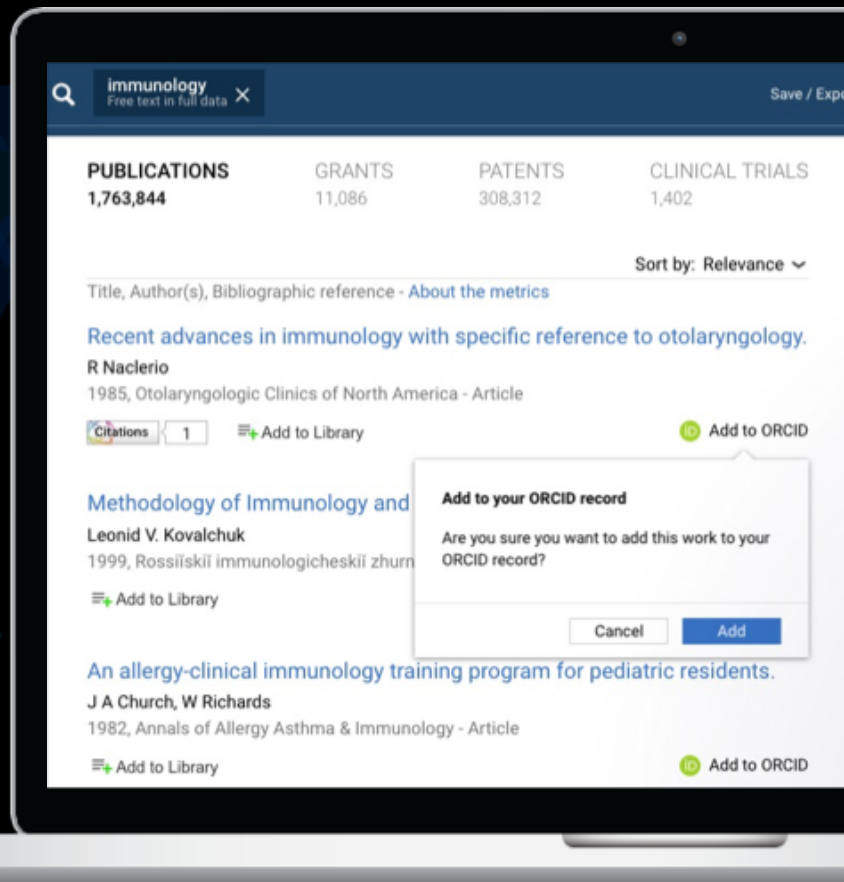

Start using it today at [badges.dimensions.ai](https://badges.dimensions.ai)

# Dimensions & ORCID

Researchers can connect their ORCID record to Dimensions to help claim and showcase their published research with a simple, efficient process.

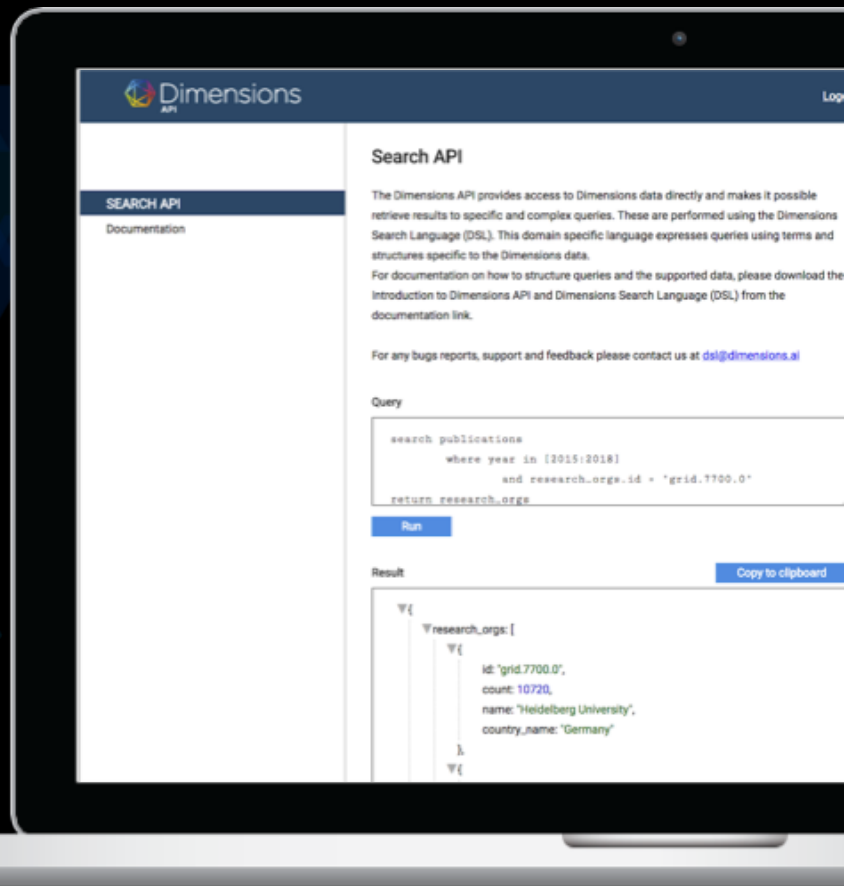

- Add publication information to your ORCID profile directly from Dimensions with a single click
- When available, publically available information is used to enrich research profiles
- ORCID records are also used to improve author disambiguation

# The Dimensions API

Powerful API - designed to allow flexible use of the enriched data

- Use without constraints for internal purposes
- Use data outside of the web-app; e.g. in admin systems or analytical software
- Querying language made and documented specifically for new Dimensions

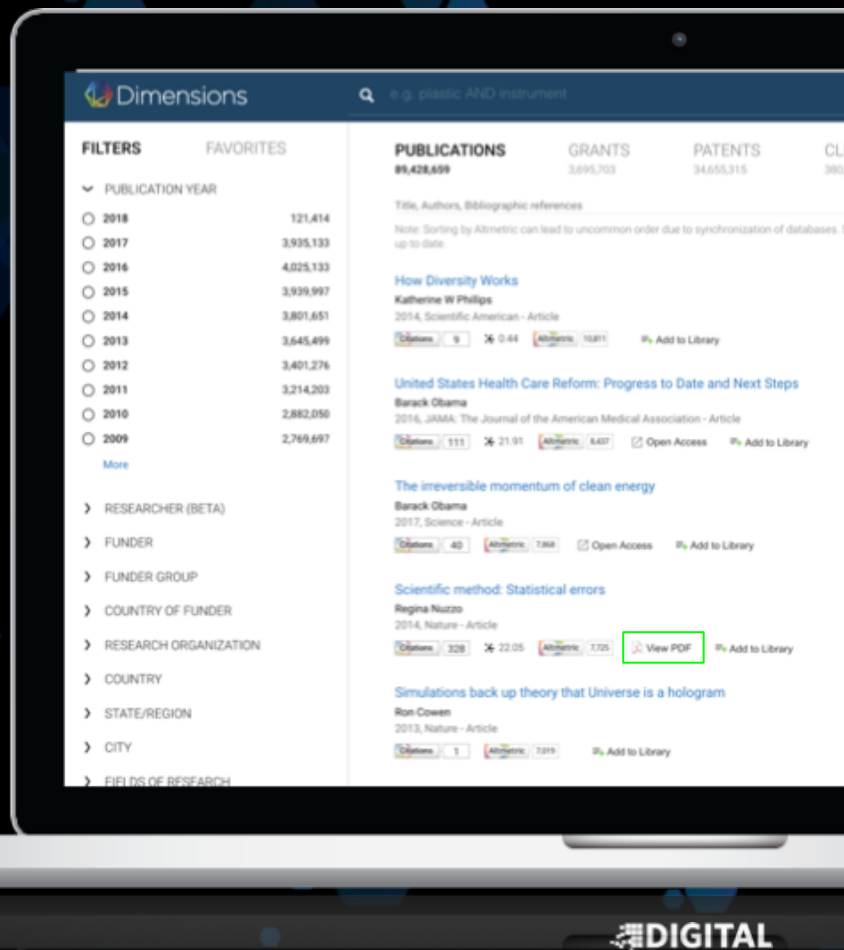

# Anywhere Access

An add-on module to Dimensions, the Anywhere Access module offers instant single-click access to:

1. Open Access articles
2. Articles subscribed to with publishers

Anywhere Access works with the organization's own subscription holdings via EZProxy integration and SSO authentication.

# Anywhere Access as a Library Solution

- Library software that connects patrons to subscribed content efficiently
- 1-click access to full text - simplest way to access subscribed content
- Integrated with library holdings, link resolvers, ILL
- COUNTER compliant - downloads from publisher platform.
- Clear indication of access; Ensure no dead ends
- On/off campus - authenticated with SSO
- Integrated document delivery option (instant)
- Cloud solution with two deployment options:
  - Platform add-in (e.g. **Dimensions**, Primo)
  - Browser Extension (works across web)
