4 6н1

7 PORS

Click **Done** to close the pick ticket.

At the alert, click "Yes" to close the pick ticket.

Note: by clicking "Yes" you will be converting the set of parts into a reservation to be released in the Counter Release feature. You cannot reopen the Pick Ticket from Go. If you need to reopen the Pick Ticket, you will have to open the Pick Ticket in AiM, reset the status from "Drawn" to "In Work", then correct the draw quantity.

OK

Create a New Release

Search or scan for the Pick Ticket.

Release to the Employee.
