Featured speaker and Nobel Laureate **Dr. Tom Cech** will share insights from his new book, *The Catalyst*, during this captivating session. Arrive at **5:00 PM for pizza** before the 5:30 PM talk, which concludes with an exclusive book signing and sale.

## CUriosity: Why Does CU have so many hot springs, and are they at risk?

Colorado has many hot springs because of its unique geological setting, where heat from the Earth's interior rises close to the surface, heating groundwater that then emerges as hot springs. However, the development of geothermal energy as a clean power source could pose risks to these hot springs by altering their natural flow and temperature. Continue reading [here](#).

## External Opportunities Outside CU

### Wrangell Mountains Field Studies 2026

Earn six semester credits in Earth and Climate Sciences through the University of Maine by joining this field research program in the heart of Alaska's Wrangell-St. Elias National Park. From **June 22 to August 10**, students gain hands-on experience in glacier dynamics and ecology. Applications are reviewed on a rolling basis.
