

Geneva Oestreich

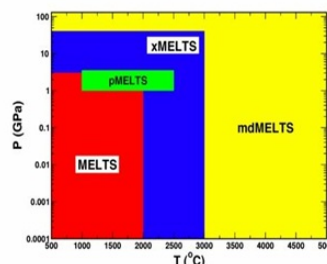

Hi everyone! My name is Geneva, and I'm one of the Front Desk Assistants for the Geology department. I've been here since October, handling everything from writing the weekly Geology Graduate Newsletter to answering your emails about conference rooms (yes, that's me!). I'm also here to help with anything "front office" related. I'm a sophomore in the business school, studying Finance and Marketing, and I've loved working in GEOL—it's been great getting to know so many friendly and welcoming people! Feel free to stop by the front office to say hi, chat, or even just grab some candy. And if you ever have any questions, don't hesitate to email the front desk below!

Important Upcoming Deadlines

Computational Thermodynamics Workshop

Dr. Mark Ghiorso will be leading a computational thermodynamics workshop here in Benson on **Thursday, April 3rd**. There will be two sessions for this workshop: a morning session from 8:30 - 11:00 and an afternoon Q&A/hands-on session with Mark from 2:00 - 4:00. This workshop is open to everyone, it is intended to introduce new users to the ENKI-MELTS software ecosystem. If you are interested in studying and modeling geochemical reactions (mineral-silicate liquid, mineral-mineral, mineral-fluid) at elevated temperatures and pressures, then this workshop definitely has something to offer you! View the flyer below! Spots are limited! Email Aaron.bell@colorado.edu if you want to attend.

Funding Opportunities

Scholarships and Stipends

BAM Scholarship Portal

In need of money? Scholarship applications for the 2025-26 Academic Year are open and in your Buff Portal. Completing the general application will apply you to almost all scholarships in Geological Sciences as well as hundreds of other scholarships in A&S and across campus. It is well worth a few minutes of your time.

You are strongly encouraged to respond to the optional essay question about your research interests – this helps the awards committee match you with funding opportunities related to your research area! Apply below!

Jobs and Internships

February Job Repository

Below is the link to the February Job Repository. The January and December Repository's will continue to be available. Some highlighted opportunities this week include:

- Strategic Data Project Fellowship
- App State Lecturer
- Montana Field Geologist

Graduate Research Funding

The Lawrence A. Taylor Research Fund in Petrology and Geochemistry

Beginning in 2021, The Lawrence A. Taylor Research Fund in Petrology and Geochemistry, provided through the generosity of Dong-Hwa Shin (Dawn) Taylor, will provide grants for two PhD students pursuing studies in the fields of Petrology and/or Geochemistry and who demonstrate excellent research in their field. The grant will cover some of the financial burden associated with candidate's research studies. Learn more and apply through the link below, applications due **March 13th, 2025**.
