

International Student Conferences

Join students from across the U.S. and Asia for a one-of-a-kind leadership exchange that blends global issues, cultural immersion, and unforgettable friendships.

Spend Your Summer Exploring the World

Most internships offer a window into one company or career path. ISC conferences offer something bigger: the chance to travel across cities, explore global issues, and connect with students and professionals from dozens of fields.

These three-week summer programs bring together undergrad and grad students from the U.S. and Asia to examine the most pressing issues of your generation through research, dialogue, and cultural exchange. You'll gain new perspectives, expand your international network, and walk away with an experience that sets your résumé apart — and stays with you long after summer ends.

Why Students Choose ISC

Student-Led Dialogue

You're not a spectator—you run the show. Students set the themes, lead the conversations, and drive the program.

Cultural Immersion

Step out of the classroom. Meet alumni and professionals, explore new cities, and share daily life with peers abroad.

Lifelong Network

Join 6,000+ alumni across business, government, academia, arts, and media.

Real Impact

From CEOs to diplomats to artists, ISC alumni shape the world, and many trace it back to their conference.
