2905 Aurora Ave, Apt 115, Boulder CO

Education

University of Colorado, Boulder, CO
Predoctoral Trainee, Clinical Psychology, August 2022 to Ongoing

Northern Michigan University, Marquette, MI
MSc, Psychological Science, August 2020 to May 2022
> Thesis: "A relation between neuroticism and trial to trial P3b latency variance in a Stroop-style reaction time task"
> Committee: Jon Barch (chair), Lin Fang, and Christine Hartline

University of Minnesota, Minneapolis, MN
BS, Psychology, August 2016 to December 2019
> Capstone Project: "Construct validity of CB5T aspects"

Research Experience

Professor Jon Barch, Northern Michigan University
Research Assistant, August 2020 to May 2022
- Managed research team for thesis project
- Operated electroencephalography (EEG) equipment for study investigating neural correlates of perceived competence
- Developed python implementation of an adaptive filtering procedure used to extract single trial EEG readings

Professor James Lee, University of Minnesota
Research Assistant, August 2019 to May 2020
- Developed capstone project investigating relationship between aspects of neuroticism and variability in visual and auditory choice reaction time
- Collected data for study investigating relationship between aspects of openness to experience and choice reaction time speed

Presentations

"Affective Responses to Nature versus Urban Pictures: Inherent or Associative", Association for Psychological Science (APS), May 2021

Grants & Awards

Excellence in Education Research Grant, Northern Michigan University, 2021
