

CU-Boulder's networking resources and facilities support the academic activities that are consistent with the mission and goals of the University. By using the guest wireless network you are agreeing to abide by campus Computing and Network Resources Policy <http://www.colorado.edu/policies/cnr/>.

### **Accessing CU-Boulder's Guest Wireless Network From Your Wireless Device**

CU-Boulder provides wireless access for guests with laptops, netbooks or any device capable of receiving wireless signals. You will be able to access the Internet from your wireless device when within range of an access point.

### **Terms and Conditions of Use**

Guests will need a notebook/laptop computer or other device equipped with a wireless card that supports the WiFi standard. The University of Colorado Boulder assumes no responsibility for the safety of equipment.

The Office of Information Technology is responsible for administering and overseeing the campus computer network; however, the University is not responsible for loss of data or hardware failures that may occur during this process.

Guests are expected to use the wireless access in a legal and responsible manner. By using this wireless access network, the user acknowledges that he/she is subject to, and agrees to abide by all laws, and all state and federal rules and regulations applicable to Internet use. Misuse of the guest wireless network may result in the loss of your internet connection privileges, as well as, possible disciplinary and /or legal action.

### **Security Considerations**

Wireless access is by nature an insecure medium. As with most guest wireless networks, any information being sent or received over the CU-Boulder Guest wireless network could potentially be intercepted by another wireless user. Cautious and informed wireless users should not transmit their credit card information, passwords and any other sensitive personal information while using the CU-Boulder Guest Wireless service.

The Office of Information Technology recommends that wireless access users have up-to-date virus protection on their devices.

### **Disclaimer**

CU-Boulder provides wireless connectivity as a service and offers no guarantees that any use of the wireless connection is in any way secure, or that any privacy can be protected when using this wireless connection. Use of this wireless connection is entirely at the risk of the user, and the University is not responsible for any loss of any information that may arise from the use of the wireless connection, or for any loss, injury, or damages resulting from the use of the wireless connection.

### **Agreement**
