

2022 I&S/ISC Volunteer Day of Service Job Descriptions

Job Name	Group Leader (assistant leaders)	Job Description	Shift Hours	No. of volunteers (max)
Weed Removal/Landscape Beds - Morning Shift	Scott Redder (Additional staff names TBD)	Enjoy time outside impacting the most visible parts of campus. Volunteers will assist with weed removal in landscape beds. This is very important to plant health and the aesthetics of campus. Removing weeds before they go to seed will also reduce the number of seeds in the seed bank. This, in turn, will reduce the number of weeds in the future. Working with our team, volunteers will see an immediate impact from their work!	10am - 12noon	16
Placing Mulch and Tree Mulch Rings	Vince Aquino	The importance of mulching cannot be overstated. Volunteers will assist our campus arborists by pulling weeds and digging out grass in tree rings. We will also be placing new mulch around the various trees on main campus.	10am - 12noon	10
Re-Painting Handrails	Robert Schumaker (Tom Miller/Jon Klarich)	Come outside and enjoy the opportunity to make an immediate difference in the beautification of campus. Volunteers will assist with re-painting handrails located around main campus.	10am - 12noon	15
Sticker Removal	Jessica Napp	Come outside and enjoy the opportunity to make an immediate difference in the beautification of campus. Volunteers will assist with scraping and removing stickers which are located around main campus.	10am - 12noon	10
Team Green Clean 'n Sort	Barry Sparks	Our work will be weather dependent. If it's cool enough to work outside comfortably, we'll hop in golf carts with the tools necessary to clean out as many recycling and dumpster enclosures as we can. If it looks uncomfortable outside, we'll help the students working in the ROC do some paper sorting, or some extra deep cleaning. Either way, a good time will be had by all, and we've got an extra special little bit of sustainable swag to hand out to all participants.	10am - 12noon	6
