Biometric Screener

Date Posted: 4/16/2012
Job Title: Biometric Screener
Job Location: Denver Metro Area/Front Range Communities
Schedule: Tuesday – Friday, 6 am – 11 am (days and hours depend on duration of event)
Employment Type: We are currently offering contractor per diem positions. We are busiest in the fall and spring. (Perfect for someone who desires flexibility in their schedule)
Compensation: $20 - 25/hour (DOE) (Contractor per diem)

In business since 1983, HPMI provides comprehensive health and wellness services to worksites. We have a team of conscientious, energetic, and friendly professional staff who are passionate about wellness. We operate with the highest integrity, we work hard to exceed our customer’s expectations, we have fun and we support each other in balancing work and family.

Position Description:
This position will be a member of our biometric screening staff that travels to local health screening events for our clients. The screener will be required to measure blood pressure, height, weight, percent body fat and BMI and communicate these values to each employee. If you enjoy being a part of a team, promoting health & wellness and have a health background send a resume to the contact below. We will be conducting interviews through summer 2012 in preparation for the fall health screening season.

Key components of the job:
• Measuring blood pressure using a stethoscope and manual cuff on various populations
• Measuring height, weight, body fat percent (via impedance) and BMI
• Provide a friendly and timely health screening to the client’s employees
• Arriving on time to each event. The screener is expected to arrive (a minimum) 30 minutes early with the rest of the team to assist in setting up the event and to stay after (~ 15 minutes) to clean up the event.

Skill Requirements/Competencies:
• Bachelor or Masters in a health related degree background. Including a degree in health education, human physiology, exercise science, corporate wellness, nursing, public health, EMT
• Time oriented
• Prior experience measuring blood pressure using a stethoscope and manual cuff is required
• Previous health screening background preferred
• A reliable vehicle to get you to and from each event is required
• Physical Requirements - This position requires frequent standing and sitting, bending, talking, listening, reaching above shoulder level, and repetitive motions to carry out the required measurements during a screening. Must be able to lift and carry up to 10 – 20 lbs.
• Proficiency in English is required. Bilingual Spanish speaking is a plus.
