

Vision-Intercollegiate Exchange Program (IEP)

IEP seeks to educate, empower, engage, and develop our staff by facilitating opportunities to visit and network with the same, like, or similar professional staff and trades people from neighboring schools and universities.

Mission

To promote best practices and shared experiences across all trades and professional staff that make up the facility management team through on going, onsite fieldwork, discussion sessions and educational sessions on a particular relevant topic.

Objectives

- By June of 2018, the IEP will have identified 15-20 participants from each of the participating schools, which include the University of Colorado-Boulder, the University of Colorado Anschutz Medical Campus, Colorado State University, Colorado School of Mines, University of Colorado-Colorado Springs, and Regis University. Each participating University shall elect one person as their IEP contact person that will facilitate and help organize the meetings between participating personnel from similar work skill, trade, and/ or performance types.
- By Fall 2018, IEP will launch.
- By June of 2019, IEP will have identified 15-20 new participants to participate in the program either from existing participating, or newly participating universities.

Strategies

- Set up Facilities Management (FM)/Planning, Design & Construction (PD&C) personnel to meet with counterparts from participating schools/universities at the host campus as well as potentially other trade and professional personnel

- Provide networking time for FM/PD&C and other facility maintenance personnel to exchange best practices, share ideas, tour each other campuses, and share their experiences.
