- *If the host supervisor is not full-time CU faculty/staff:*
  - Also submit the *CU Boulder Supervisor Form (Extension)*.
- Complete the *Program Information & Details (Extension)* e-form.
- Complete the *Departmental Administrator: Departmental Responsibilities & Attestation (Extension)* e-form.

  - The department cannot submit these e-forms on the exchange visitor's behalf.
  - If you would like to email the scholar directly or they indicate they did not receive the MyISSS email, direct them to log into their [MyISSS portal](#), click on Departmental Services on the left navigation, then click on the DS-2019 Extension (Scholar) tile. Within the DS-2019 Extension (Scholar) screen, instruct them to scroll down and click on the already initiated *DS-2019 Extension (Scholar)* request (not the Start a New Request link).
- **Do not initiate the *Export Controls Review (Extension)* e-form until all prior required e-forms have been submitted.**

- The Export Controls Review (extension) e-form is pre-populated with the Office of Export Controls (OEC) information. Click on "Submit" to send the e-form to OEC.
  - Departments that have an internal export control review must also upload documentation of the completed internal review in the e-form.

***To return to an already initiated DS-2019 Extension request, click on “My Current Cases” tile under “Lists” in the Departmental Services portal to access the request.***

- If you attempt to access an already initiated *DS-2019 Extension* request by clicking on the “DS-2019 Extension (Scholar)” tile under “Tasks,” you may create a duplicate request and information may be spread across multiple requests. This will have to be manually corrected by the department which will slow the processing of the DS-2019 extension as all information must be on a singular request.
