

# HOW TO ACCESS YOUR eBook DURING OPEN-BOOK EXAMS

- 1** Log in to your West Academic bookshelf at [eproducts.westacademic.com](https://eproducts.westacademic.com) and **select the book** on your bookshelf.
- 2** Click the **eBook button** at the top of the page to open the eBook in the **VitalSource eReader**. The first time you access a book in the VitalSource eReader, you will be prompted to **complete your VitalSource account**. Follow the prompts to create a new account or sign in with an existing VitalSource account.  
*(Note: preferably the same email address used to create your West Academic account.)*
- 3** **Download** the VitalSource™ Bookshelf desktop app to read the book offline.
- 4** **Sign in and download the book** while connected to the internet. Once the book has been downloaded, a small checkmark icon will appear in the top-right corner of the title and be available for offline reading.

**NOTE:** Professors must select the correct access setting in ExamSoft to allow offline access to the eBook during an open-book exam.

For additional help, call 877-888-1330, option 4.
