## **LIBRARIANSHIP**

---

### **Metadata Creation & Management:**

Develop, implement, and evaluate metadata strategies, policies, and procedures for all library material types. Supervise, train, and evaluate the work of the Metadata Services Assistant. Perform batch loading of electronic resource catalog records provided by third party vendors. Perform original and complex cataloging of materials in various formats and fields of law. Provide authority control processing. Collaborate with colleagues to develop and maintain metadata procedures and policies for digital collections. Contribute metadata and content submissions to online institutional repository.

## **PROFESSIONAL CONTRIBUTIONS & SERVICE**

---
