

## Public Service Pledge

In keeping with the University of Colorado Law School's commitment to public service and the ethical responsibility of the legal profession to ensure access to justice for all, I agree to volunteer a minimum of 50 hours of law-related public service work not for credit or compensation during my time at Colorado Law.

I understand when I undertake work to fulfill this pledge, I am taking on a job that requires the same kind of commitment and professionalism I would give any other work obligation. I further understand that when I participate in the Public Service Pledge, I am representing the Law School in the broader legal community. In keeping with these responsibilities, I commit to upholding the highest standards of professionalism in the work I undertake to fulfill this pledge.
