

Mechanical Engineering Strategic Advisory Board (MESAB)

Distinguished Achievement Award & Lecture

Dr. Adrian Bejan

J.A. Jones Distinguished Professor of Mechanical Engineering
Thomas Lord Department of Mechanical Engineering &
Materials Science, Duke University

Professor Adrian Bejan is a world-renowned engineer and physicist whose research spans thermodynamics, heat transfer, convection, design, and evolution in nature. He is the recipient of the Benjamin Franklin Medal (2018) and the Humboldt Research Award (2019) and ranks among the top 0.01% of the world's most cited scientists. He has authored 30 books, 700 peer-reviewed publications, and received 18 honorary doctorates from universities in 11 countries.

Join the Paul M. Rady Department of Mechanical Engineering as we celebrate the inaugural presentation of the University of Colorado Boulder Mechanical Engineering Strategic Advisory Board (MESAB) Distinguished Achievement Award!

The afternoon will include the formal presentation of the inaugural MESAB Distinguished Achievement Award, followed by a distinguished seminar from internationally recognized engineer and educator **Dr. Adrian Bejan.**

ALL ARE WELCOME

This event is open to faculty, staff, students, alumni, and industry partners.

PROGRAM

2:30 PM

**Award
Presentation**

2:45 PM

Award Lecture

3:30 PM

Audience Questions

3:45 PM

**Reception with light
refreshments**

Friday, November 13th

2:30 PM - 4:30 PM

**Kittredge Central
Multipurpose Room**
