About the College of Music

At the University of Colorado Boulder College of Music, our mission is to inspire artistry and discovery, together. Our students earn more than a music degree in the foothills of the Rockies: We develop multiskilled, multifaceted universal musicians who are well-equipped to participate in the 21st century as artists, educators and scholars; as broadly based professionals with flexible career options; and as passionate, compassionate world citizens.

Our faculty are deeply dedicated pedagogues, award-winning performers, scholars and composers who are standing by to support our students' success and flourishing—whether their passion is to teach, perform, compose, research or rethink music entirely.

Since 1920, the CU Boulder College of Music offers a wide range of programs for undergraduate and graduate study, integrating advanced musical and interdisciplinary training with professional-level experiences. One of the top comprehensive music schools in the country, the College of Music is a fully accredited member of the National Association of Schools of Music since 1941.

Home to the American Music Research Center, the first university-level music entrepreneurship center in the country and a musicians' wellness program, the College of Music offers seven degrees in 24 fields of study.
