*** Courses approved for the Arts & Sciences General Education Curriculum.

**** A maximum of 6 credit hours from an accredited music school may be transferred and applied to the minor. Course substitutions may be approved at the discretion of the Undergraduate Associate Dean. Grades in courses applied to the music minor must be C- or higher.

Note. Private, for-credit lessons from College of Music faculty are seldom available to minoring students. In the rare instance that a studio has space, and a minoring student makes a successful audition, that student may apply up to four credits from lessons to the "Creating Music" category. Music minors have limited practice room access in Imig Music building during regular building hours. Access to the main practice room corridors is restricted to students approved for applied lessons.
