

This step-by-step checklist covers a full range of considerations when a CU Boulder Principal Investigator (PI) decides to dissolve or temporarily change their affiliation with CU Boulder. Not all areas will be applicable to every situation. Reference the full PI Departure from CU Procedural Statement for more details.

The diagram below provides a broad overview of PI transfer considerations. You will find detailed items in the checklist that correspond to the Sponsored Projects, Property and Compliance sections below.

ROLES & RESPONSIBILITIES

Various offices, units, and individuals contribute to the transfer process depending on their role, the Institution's policies and decisions made regarding Sponsored projects and lab facilities.

- Departing PI
- Department Unit (Administrators, Dean and/or Chair)
 - Central Administration (OCG & Campus Controller's Office)
- Compliance Units (EH&S, IACUC, OAR, IRB, Export Controls, etc.)
- Other Units (Property, Venture Partners at CU Boulder, Human Resources, etc.)
- Sponsor
- New Institution

SPONSORED PROJECTS

Grants and contracts are awarded to the Institution, not to individual Principal Investigators (PIs). When a PI's affiliation with the Institution dissolves, the Institution has the option to retain, relinquish or terminate the award with the Sponsor.

Retain Award

- Courtesy Appointment
- New PI Assignment
- New Subaward

Relinquish & Transfer Award

- Determine Procedures
- Determine Final Balance
- Relinquishment
- New Institution Proposal

Terminate Award

- Determine Final Balance
- Relinquishment

COMPLIANCE

Several considerations must be made regarding the Departing PI's affiliation with the Institution. Usually this is in respect to the Institution's compliance policies and procedures, as well as federal regulations.

Considerations include:

- Animal and/or Human Research
- Environmental Health & Safety
- Export Controls
- Intellectual Property
- Personnel Actions
- Other Contractual Obligations

PROPERTY

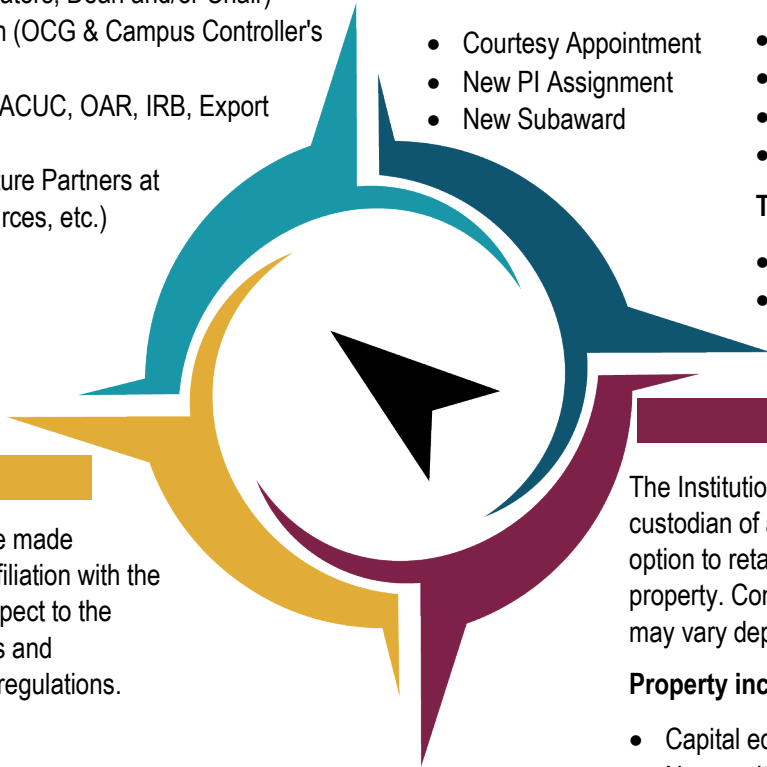

The Institution, not the PI, is the custodian of all property and has the option to retain, relinquish or dispose of property. Consideration of title to property may vary depending on acquisition.

Property includes:

- Capital equipment
- Non-capital property
- Supplies

Considerations:

- Titled
- Value
- Transfer Agreement
- Surplus
- Dispose

Glossary of Terms

Departing PI referenced in this document includes any faculty or staff engaging in sponsored projects in a Key Personnel role that plans to dissolve their affiliation with CU Boulder. This term is not limited to just the named Principal Investigators on a sponsored project.

Courtesy Appointment is an appointment for a PI who has awards staying at CU Boulder to support students, Research Associates or Professional Research Assistants. Typically a 0% appointment receiving no salary.

Property includes all items acquired under a Sponsored project, such as: supplies, materials, capital and non-capital equipment, computers, and electronic devices.

CU Discoveries means any inventive idea and/or its reduction to practice which relates to, but is not limited to: new processes or methods of producing a new and useful industrial result; any composition of matter, including chemical and biological compounds; any new devices; any new plant; any new design in connection with the production or manufacture of an article; any new computer hardware and/or software programs; any know-how supporting these inventive ideas, systems, devices, compositions, programs or processes; and any new use or improvement of existing systems, devices, compositions, programs, or processes.

Tangible Research Property means a tangible physical or biological entity that is, or may be, useful in research. Examples include models, devices, designs, avatars, computer software, storage media containing machine instructions, text, tissues, serum, fluids, organs, cell lines, antibodies, recombinant materials, chemical compounds and compositions, formulations, plant varieties, laboratory notebooks, clinical information, records, and data related to discoveries. Tangible Research Property does not include Intellectual Property that is considered Educational Material (Regent Policy 5k).
