

SPRING 2015 INDUCED COURSE LOAD MATRIX

By Program/College

University of Colorado Boulder

Report Description

An induced course load matrix or ICLM is a standard higher-education display. It shows credit hours in a matrix where rows are groups of students and columns are organizational units offering courses. Columns could also be course subjects.

Notes

- Each ICLM shows actual credit hours. The columns are the college offering a course. The rows are student college.
- All figures are for students with state-reportable hours ONLY
- Course Offering College 'Cross-College Programs' includes ROTC programs and student leadership programs

Calculations

- Column percents = Percent of college/school XX course hours that come from college/school YY students
- Row percents = Percent of college/school YY student hours that go to college/school XX courses

Questions

Please contact the Office of Data Analytics at analytics@colorado.edu
