

CU Boulder Accredited Program Exemption Form

The Office of Academic Planning and Assessment in Academic Affairs is responsible for ensuring that all academic programs at CU Boulder are achieving their stated student learning outcomes. As part of this process, programs are required to have a current student learning assessment plan on file with the Office of Data Analytics.

Academic programs subject to an external accreditation or authorization body are permitted to submit this abbreviated form in lieu of a full assessment plan.

Program Learning Outcomes (PLOs)

List your program learning outcomes (PLOs) below. Add more rows for additional PLOs, as needed. PLOs may come from an external accrediting body or be generated from within the academic unit. PLOs are not expected to cover everything students will learn in their program. Rather, PLOs should cover the core learning expected of every student.

Program Learning Outcomes (PLO)	
1	Ex: Students will persuasively articulate ideas and arguments
1	
2	
3	
4	
5	
6	

The following PLO task needs to be completed outside of this document. Please check the box below after the task has been completed:

- ☐ PLOs are entered in the CU Boulder Course Catalog for your program using the “Learning Outcomes” tab in CourseLeaf. (For questions or assistance from the Registrar on this step, go to the “Resources” section on their [Catalog Production](#) website, or email catalog@colorado.edu.)

Student Learning Assessment Methodologies

Please describe your program’s assessment methods for measuring your program learning outcomes and, if applicable, attach any relevant documentation.

Accreditation Reporting of Learning Outcomes Assessment

As part of the three-year assessment plan, non-accredited units at CU Boulder are required to submit annual updates on their learning outcome assessment results and outline next steps. If your program would like receive an exemption from these annual reports, you may provide the learning outcome assessment results reported to your accrediting organization using the timeline appropriate to your accreditation process.

Please specify your current accreditation timeline, including when you will provide learning outcomes assessment results from your accreditation process to the Office of Data Analytics. If applicable, attach any relevant documentation.
