

Comps Course Waiver Request

Listed below are the six comps courses, of which you must take five. If you have taken comparable courses at another university, complete the table, attach a syllabus, and return to the physics graduate desk.

This form cannot be used to transfer credits to the University of Colorado. That means this sheet will not enable the credits you earned at another university to count toward the 30 credit-hour coursework requirement. If you would like to apply these credits toward the 30 credit-hour coursework requirement, complete the “Request for Transfer of Credit” form. That form is available at <http://www.colorado.edu/GraduateSchool/GSForms/transferecredit.pdf>.
